- ✗ High depreciation (loss in value).
- ✗ Long braking distances.

Overview

The spacious Modus is well-suited to family life. It offers more space than a standard supermini - it's based on the Clio - but is smaller, easier to manoeuvre and cheaper to run than an all-out MPV. Renault generally has a poor record for reliability, and so far owners have mainly reported problems with the non-engine electricals.

The Modus was co-developed with sister-brand Nissan - its own mini MPV, the Note, is a direct rival. The Modus range was updated in 2008, when the longer-wheelbase Grand Modus joined the line-up to offer further interior space and practicality. The range was axed in the UK in February 2012.

The Modus excels with its on-road manners - keen drivers will enjoy the way it handles and rides. Responsive steering gives good turn-in and the suspension absorbs most bumps readily, despite being firm.

We drove the mid-powered 86bhp 1.5 diesel, achieving 55.4mpg, a little short of Renault's claimed 62.8. We've also tested the 1.6 petrol, which provides good pulling power if you rev it: we achieved 36.2mpg against the 41.5mpg official figure.

All is not perfect up front, where the central storage box can get in the way. However, things are better in the back, with a sliding rear seat. In its rearmost position (when it seats only two, instead of three) boot space is a disappointing 190 litres, but if you fold the seat down, you have up to 595 litres of luggage room. The Grand Modus has an extra 150/100 litres of space (seats up/down).

The Modus has average reliability, according to our latest Which? Car survey, but older diesel versions are definitely less reliable.
