The Illustrated Book of Classic & Dream Cars Martin Buckley, Chris Rees, 2001 *Autocar*, 2001 *Travel in Twentieth-Century French and Francophone Cultures* Charles

Forsdick, 2005-05-19 This book is one of the first studies of twentieth century travel literature in French tracking the form from the colonial past to the postcolonial present Whereas most recent explorations of travel literature have addressed English language material Forsdick's study complements these by presenting a body of material that has previously attracted little attention ranging from conventional travel writing to other cultural phenomena such as the Colonial Exposition of 1931 in which changing attitudes to travel are apparent *Travel in Twentieth Century French and Francophone Cultures* explores the evolution of attitudes to cultural diversity explaining how each generation seems simultaneously to foretell the collapse and reinvention of elsewhere It also follows the progressive renegotiation of understandings of travel and travel literature across the twentieth century focusing in particular on the emergence of travel narratives from France's former colonies The book suggests that an exclusive colonial understanding of travel as a practice defined along the lines of class gender and ethnicity has slowly been transformed so that travel has become an enabling figure encapsulated in notions such as James Clifford's traveling cultures central to analyses of contemporary global culture Engaging initially with Victor Segalen's early twentieth century reflection on travel and exoticism and Albert Kahn's *Archives de la Plan te* Forsdick goes on to examine a series of interrelated texts and phenomena early African travel narratives inter war ethnography post war accounts of Citro n

2CV journeys the travel stories of immigrant workers the work of Nicholas Bouvier and the *Pour une littérature voyageuse* movement narratives of recent walking journeys and contemporary Polynesian literature In delineating a francophone space stretching far beyond metropolitan France itself the book contributes to new understandings of French and Francophone Studies and will also be of interest to those interested in issues of comparatism as well as colonial and postcolonial culture and identity

World of Desirable Objects Deyan Sudjic,2009-06-01 A brilliant expos of the interaction between art design and commerce In The Language of Things the director of London s Design Museum charts our relationship with all things designed With

scintillating wit and an eye for the pleasures and dangers of rampant consumerism Deyan Sudjic takes us from luxury car commercials to glossy advertisements for seasonal variations of the Prada purse to the hype surrounding the latest version of the iPhone exploring how we are manipulated and seduced by our possessions Who would've thought that it's the subtle visual similarity between the Volkswagen Golf GTI and the barrel of an automatic pistol that makes people want to get behind the wheel And why is it that digital cameras in cell phones click even though they don't have a shutter Sudjic's illuminating argument will resound with anyone who has ever been affected by how things look lured in other words by the powerful siren call of design
