It highlights background information and relationships clarifying them with examples and encourages the further development of the language of digital media. In addition to the basics of perception and learning psychology, ergonomics, communication theory, imagery research and aesthetics, the book also considers design navigation and orientation elements. Guidelines and checklists along with the comprehensive design of the book support the transfer of information into practice. Frank Thissen teaches multimedia didactics and information design at the University of Applied Sciences in Stuttgart. For over 10 years he has been developing computer-based training. He has worked for international companies such as Siemens AG and SAP AG. His research project explores the role of emotion in e-learning. www.frankthissen.de Key Topics: Interactive media, Text for the screen, Effective use of pictures, Video animation and sound, Screen layout, Orientation and navigation, Interaction, Emotions and metamessages, Intercultural communication. *Autocar*, 2005

Cars , The A-Z of Modern Design Bernd Polster, 2009 This encyclopedia is the most comprehensive guide available to international product design of the twentieth and twenty-first centuries. It includes 300 entries on influential designers and studios and the most important design-led manufacturers worldwide, both past and present. **English for Life?** G. P.

McGregor, 2002 This book is written primarily as a guide for teachers of English as a second language, drawing upon experiences and research in Uganda, Zambia, Kenya, South Africa and Britain. It acknowledges the recent progress and expansion of education in the African countries and the necessity to equip non-specialist teachers who must nevertheless deliver curricula in English to large classes with limited resources and nurture a high standard of English in their students. The work has relevance also for pedagogues and linguists. Chapters are included on using the students' first language, experience, English and communication, encouraging students to co-operate rather than compete, an assessment of the vital primary experience vocabulary and how to teach it, English for real conversation, improving reading skills and the choice of books, writing grammar and what is meant by knowing the grammar of a language, literature, life and poetry. **Interfaces**
