When the Adults Change, Everything Changes Paul Dix, 2017-06-06 You can buy in the best behaviour tracking software introduce 24/7 detentions or scream NO EXCUSES as often as you want but ultimately the solution lies with the behaviour of the adults. It is the only behaviour over which we have absolute control. Drawing on anecdotal case studies scripted interventions and approaches which have been tried and tested in a range of contexts from the most challenging urban comprehensives to the most privileged international schools behaviour training expert and Pivotal Education director Paul Dix advocates an inclusive approach that is practical, transformative and rippling with respect for staff and learners. An approach in which behavioural expectations and boundaries are exemplified by people not by a thousand rules that nobody can recall. When the Adults Change Everything Changes illustrates how with their traditional sanction and exclusion led methods the punishment brigade are losing the argument. It outlines how each school can build authentic practice on a stable platform resulting in shifts in daily rules and routines in how we deal with the angriest learners in restorative practice and in how we appreciate positive behaviour. Each chapter is themed and concludes with three helpful checklists. Testing, Watch out for and Nuggets designed to help you form your own behaviour blueprint. Throughout the book both class teachers and school leaders will find indispensable advice about how to involve all staff in developing a whole school ethos built on kindness, empathy and understanding. Suitable for all head teachers, school leaders, teachers, NQTs and classroom assistants in any phase or context including SEND and alternative provision settings who are looking to upgrade their own classroom management or school behaviour plan. When the Adults Change Everything Changes was a silver winner 2017 Foreword INDIES Awards in the Education category. Named one of Book Authority's best education reform books of all time. A Sociology of Special and Inclusive Education Sally Tomlinson, 2017-02-24 A Sociology of Special and Inclusive Education brings sociological perspectives to bear on the social, political and economic policies and practices that comprise special and inclusive education and the education of lower attainers. Increasingly governments have accepted the premise that education should incorporate all social and ethnic groups, especially those regarded as having special educational needs, disabilities and difficulties in learning but despite a plethora of literature on special and inclusive education world wide governments are still unsure of the reasons for this sector's expansion in their national education systems. Professor Tomlinson applies critical sociological perspectives to the social processes, policies and practices that comprise special and inclusive education particularly in England and the USA. She clearly examines the way in which people or groups exercise power and influence to shape this area of education and discusses the conflicts of interest that arise in resulting social interactions and relationships. Key questions asked include

Why and how has a whole sector of education dealing with young people regarded as having learning difficulties low attainments behaviour problems or disabilities developed How have special education programmes and resources become subsumed into variations of inclusive education Why have ideological beliefs in hierarchies of ability limits to learning potential and IQ as measurement continued to legitimate the treatment of young people What happens to young people after their special included or lower attainers programmes in terms of work and life chances A Sociology of Special and Inclusive Education will be of interest to a wide range of educators professionals practitioners and policy makers concerned with special inclusive and vocational education in addition to undergraduate post graduate and research students and academics
