Developing a Rubric to Assess 3rd-5th Grade Student Understanding of Science Concepts Via Screencast

Models Sarah Boughey, 2019 Abstract The purpose of this project was to develop a rubric to assess third through fifth grade students scientific understanding through NGSS modeling created via screencasts Scientific modeling can better capture student understanding through screencasts because it shows student thinking through drawing labeling writing and explaining verbally in recordings It is easier for young children and English learners to express their thinking by talking than by writing This project utilized research on science rubric creation and NGSS modeling to help develop a rubric Expert reviewer feedback was utilized to revise the rubric into its final version
