Teac User Guide:

A User's Guide to a Computer Program for Harmonic Analysis of Data at Tidal Frequencies R. E. Dennis, 1971

TASCAM Randy Alberts, 2003 Book TASCAM 30 Years of Recording Evolution is an informative archival book devoted to the company's groundbreaking product line and the people who created it. Recalling the company's perennial leadership role in the music and pro audio industries, firsts include the 1/2 inch 8 track recorder the Portastudio and the digital DA 88 with a glimpse towards the future. This book warmly portrays key past and present employees by revisiting the landmark products they've built together since 1974. Quotes from respected musicians and producers who have trusted TASCAM gear for seminal recordings including Bo Diddley, Jim Keltner and Alan Parsons are sprinkled throughout this timeline-based book. Learn how TASCAM products changed the way musicians captured their ideas and empowered a new generation of songwriters and engineers. Wow! The first classic piece of TASCAM gear I had was the first 4 track Portastudio. That thing allowed me to put so many classic P-Funk song ideas down that I can't even count 'em. Bootsy Collins, Bassist, Songwriter.

Microcomputer User's Handbook Dennis Longley, Michael Shain, 1983-06-18 Fixing Instruction Victor P.

Maiorana, 2015-10-21 A professional core includes a common language of practice foundation principles and skills and related standards. Such a core is present in the medical engineering and legal professions. Instructionally, it is not present in the teaching profession. There is no core foundation for critical instruction. Such instruction long sought but unrealized leads students to think, read and write critically for content comprehension. These issues obstruct critical instruction. There is no uniform use of instructional terms. Conventional serialism-based instruction blocks the mind's nature to think critically. Rote learning is the result. Teaching is based on thinking directed at subject matter. Yet we practice without a universal foundation. In either, Teacher preparation programs have no foundation courses for critical instruction. There are no teacher educator teacher or student standards for critical thinking for comprehension, the basis of critical reading and writing. These issues result in weak instructional preparation and practice and poor student achievement. Fixing Instruction resolves the issues. It provides for the first time teacher educators, teacher candidates, teachers and professional developers with an explicit core body of knowledge for critical instruction.
