Novels for Children and Young Adults is the first book to offer a critical examination of children's and YA comics. The anthology is divided into five sections: structure and narration, transmedia, pedagogy, gender and sexuality, and identity, that reflect crucial issues and recurring topics in comics scholarship during the twenty-first century. The contributors are likewise drawn from a diverse array of disciplines: English, education, library science, and fine arts. Collectively, they analyze a variety of contemporary comics, including such highly popular series as *Diary of a Wimpy Kid* and *Lumberjanes*. Eisner award-winning graphic novels by Gene Luen Yang, Nate Powell, Mariko Tamaki, and Jillian Tamaki, as well as volumes frequently challenged for use in secondary classrooms such as Raina Telgemeier's *Drama* and Sherman Alexie's *The Absolutely True Diary of a Part Time Indian*. Introducing Teachers and Administrators to the NGSS Eric Brunzell, Deb M. Kneser, Kevin J.

Niemi, 2014-05-01 If you're charged with helping educators achieve the vision of the new science standards, this is the professional development resource you need. This book is chock full of activities and useful advice for guiding teachers and administrators as they put the standards into practice in the classroom. Written by three experts in professional development for science teachers, *Introducing Teachers and Administrators to the NGSS* introduces the vocabulary, structure, and conceptual shifts of the NGSS. It explores the three dimensions of the Framework: science and engineering practices, crosscutting concepts, and disciplinary core ideas, and how they're integrated in the NGSS. It provides classroom case studies of instructional approaches for students challenged by traditional science teaching. It covers curricular decisions involving course mapping, designing essential questions, and performance assessments, and using the NGSS to plan units of instruction. It examines the connections between the NGSS and the Common Core State Standards. It offers advice for getting past common professional development sticking points and finding further resources. Given the widespread changes in today's education landscape, teachers and administrators may feel overwhelmed by the prospect of putting the new standards into practice. If you're a science specialist, curriculum coordinator, or instructional coach who provides professional development, you will find this collection immensely helpful for heading off initiative fatigue, whether in an individual school or throughout a district.

Online Teaching at Its Best Linda B. Nilson, Ludwika A. Goodson, 2017-11-08 Bring pedagogy and cognitive science to online learning environments. *Online Teaching at Its Best: A Merger of Instructional Design with Teaching and Learning Research* is the scholarly resource for online learning that faculty, instructional designers, and administrators have long been awaiting. Over 70 percent of degree-granting institutions offer online classes, and while technical resources abound, the courses often fall short of integrating the best practices in online pedagogy, even if they comply with online course design standards. Typically, these standards omit the best practices in teaching and learning and the principles from cognitive science, leaving students struggling to keep the pace, understand the material, and fulfill their true potential as learners. This book fills the gap, providing evidence-based practices for online teaching, online course design, and online student motivation, integrated with pedagogical and cognitive science to help you build the distance learning courses and programs you

students deserve As more and more students opt for distance learning it s up to designers and instructors to rethink traditional methods and learn to work more effectively within the online learning environment and up to administrators to provide the needed leadership Online Teaching at Its Best provides practical real world advice grounded in educational science to help online instructors instructional designers and administrators deliver an exceptional learning experience Adopt new pedagogical techniques designed specifically for online learning environments Ensure strong course alignment and effective student learning for online classes Increase student retention build necessary support structures and train faculty more effectively Integrate research based course design and cognitive psychology into graduate or undergraduate programs Distance is no barrier to a great education what do stand in the way are inadequate online course design and implementation and deficient faculty training and support all of which administrators can mitigate Online Teaching at Its Best will help you ensure that your online classes measure up to the rigor and quality of excellence in teaching and assessment build in the personal touch for developing a learning community and equip your students to succeed in the next challenge
