Betraying Teachers, Betraying Students Rich Waters, 2022-09-28 Schools derived of learning community cultures consistently provide students better learning outcomes than traditional schools The book argues that the current approach to preparing teachers as independent agents via on campus classes is not only ineffective but deprives teachers of extensive development opportunities The proper location of teacher induction and development is in local schools that are derived of a learning community culture where teachers have a full career of professional development **Handbook of Research on Digital Content, Mobile Learning, and Technology Integration Models in Teacher Education** Keengwe, Jared, 2017-07-13 While many facets of our lives are rapidly becoming more digital educational institutions are now faced with the task of finding new and innovative ways to incorporate technology into the classroom Examining the latest trends in digital tools provides a more effective learning environment for future generations The Handbook of Research on Digital
