Taber,2019-04-29 The features of chemistry that make it such a fascinating and engaging subject to teach also contribute to it being a challenging subject for many learners Chemistry draws upon a wide range of abstract concepts which are embedded in a large body of theoretical knowledge As a science chemistry offers ideas that are the products of scientists creative imaginations and yet which are motivated and constrained by observations of natural phenomena Chemistry is often discussed and taught largely in terms of non observable theoretical entities such as molecules and electrons and orbitals which probably seem as familiar and real to a chemistry teacher as Bunsen burners and yet comprise a realm as alien and strange to many students as some learners own alternative conceptions misconceptions may appear to the teacher All chemistry teachers know that chemistry is a conceptual subject especially at the upper end of secondary school and at university level and that some students struggle to understand many chemical ideas This book offers a step by step analysis and discussion of just why some students find chemistry difficult by examining the nature of chemistry concepts and how they are communicated and learnt The book considers the idea of concepts itself draws upon case studies of how canonical

chemical concepts have developed explores how chemical concepts become represented in curriculum and in classroom teaching and discusses how conceptual learning and development occurs This book will be invaluable to anyone interested in teaching and learning and offers guidance to teachers looking to make sense of and respond to the challenges of teaching chemistry     The Nature of the Chemical Concept Keith S Taber,2022-06-29 This book offers a step by step analysis and discussion of just why some students find chemistry difficult by examining the nature of chemistry concepts and how they are communicated and learnt     *Acts of Teaching* Joyce Armstrong Carroll,Edward E. Wilson,Nicole Klimow,Kristy Hill,2018-11-09 Inclusive of the scope and authoritative references from earlier editions this edition additionally embraces the digital world and provides practical suggestions for performing the act of teaching Teachers of writing at all levels will applaud this edition for its new features designed to help teachers to understand and teach to today s new paradigms in writing New to this edition are two chapters on cognition and technology respectively a chapter on early literacy with student samples and for the first time an online connection that links readers to important articles visuals and resources Essay writing is explored through discussion of the thesis and its criteria five organizational patterns for the expository essay and distinctions among the opinion persuasive and argumentative essay Several new prewriting strategies are also provided A Sense Notebook Looking Contouring an expanded explanation of Blueprinting and a discussion of a hierarchical approach to organization
