Looking Beyond the Runway Professor Nawal K Taneja,2012-10-01

The global airline industry facing significant changes and discontinuity is prompted and forced to deal with a new normal Who would have imagined a few years ago that a significant percentage of consumers in the US now prefer to fly low cost airlines instead of full service airlines because they perceive the product to be better airlines would generate up to a third of their total income from non ticket revenue many low cost airlines would add complexity to their original simple business models through the development of code share agreements the use of global distribution systems and travel agents to distribute their seats Jetstar a low cost subsidiary of Qantas would grow faster and be more profitable than its parent a survey carried out by Ryanair would show that 42 percent of passengers would be willing to stand on short one hour flights if they could pay 50 percent less than seated passengers passengers could pay as little as US 2 000 for a transatlantic Business Class ticket on top brand airlines Lufthansa would have ownership in airlines based in Austria Belgium Italy Switzerland Turkey the UK and the US and that it would continue to pursue equity ownership in airlines based in Poland and Scandinavia or the Japanese and Canadian governments would struggle to find different ways to bail out their heretofore flag carriers To deal with this upcoming new normal airlines have to go beyond their short term circumstantial strategies they need strategic renewal of their ageing business model In this candidly written book Nawal Taneja explains what will separate the winners from the losers He maintains the leaders will be the airlines that 1 exploit this crisis driven change to their best advantage 2 learn to work around the airline inherent constraints that prevent them from running their businesses just like other businesses 3 learn from successes and failures of other global enterprises 4 sharpen their business intelligence analytics and strategic agility and 5 proactively explore the pockets of growth in this emerging markets century To help airline executives become informed of new competitive games the author analyzes numerous business sectors such as auto hospitality retail technology and entertainment For example relevant lessons can be learned from the strategic mistakes made by the US automakers Likewise emergent and compelling insights can be gained in superior customer experience from Ritz Carlton and Zappos and in value creating innovation from Cirque du Soleil and Zipcar The book also features a multitude of forewords from airlines and related businesses to provide readers with multiple perspectives on the changing landscape in the global airline industry Nawal Taneja is a career analyst of the global airline industry with wide ranging experience in the aviation industry academia and public policy Encouraged by industry executives he has written five other books for practitioners in the global airline industry including FASTEN YOUR SEATBELT The Passenger is Flying the Plane and Flying Ahead of the Airplane *The Economics of Contemporary Latin America* Beatriz Armendariz,Felipe Larrain B.,2017-05-05 Analysis of Latin America s economy focusing on development covering the colonial roots of inequality boom and bust cycles labor markets and fiscal and monetary policy Latin America is richly endowed with natural resources fertile land and vibrant cultures Yet the region

remains much poorer than its neighbors to the north Most Latin American countries have not achieved standards of living and stable institutions comparable to those found in developed countries have experienced repeated boom bust cycles and remain heavily reliant on primary commodities This book studies the historical roots of Latin America s contemporary economic and social development focusing on poverty and income inequality dating back to colonial times It addresses today s legacies of the market friendly reforms that took hold in the 1980s and 1990s by examining successful stabilizations and homemade monetary and fiscal institutional reforms It offers a detailed analysis of trade and financial liberalization twenty first century growth and the decline in poverty and income inequality Finally the book offers an overall analysis of inclusive growth policies for development including gender issues and the informal sector and the challenges that lie ahead for the region with special attention to pressing demands by the vibrant and vocal middle class youth unemployment and indigenous populations
