

1. The first step in the process is to identify the problem or issue that needs to be addressed.

2. The next step is to gather information and data related to the problem.

3. Once the information is gathered, the next step is to analyze the data and identify the root cause of the problem.

4. After the root cause is identified, the next step is to develop a plan to address the problem.

5. The plan is then implemented, and the results are monitored to ensure that the problem is resolved.

6. Finally, the results are evaluated, and the process is documented for future reference.

7. The process is then repeated as needed to address any new problems that arise.

8. The process is then repeated as needed to address any new problems that arise.
