World Fair Wonder Unit 5 Lesson 2:

Families, the Environment, Sports and Competition David Cook Publishers, 2000-06 It's All in the Family The word family has a very different meaning today than it did not much more than ten years ago It used to be the family meant two parents and their children all living together often with the father being the provider and the mother the homemaker Today fewer children live in that kind of family No doubt in your class you have some kids who live in single parent homes or step families or at least one child who is living in an abusive situation In America today many millions of our children are experiencing great stress in the setting that God intended to be the source of love security and teaching about life Even children who live in two parent families are often anxious about the possibility of a divorce happening in their families and those who have experienced divorce or abuse struggle to cope with their situations This unit will address some of these issues giving your students a safe place to talk about any concerns they may have about their families It will also present perspective by reassuring them that there are no perfect families and that they can enjoy living in their families when they learn that everyone has to work hard to make a family special You will also have an opportunity to share with them the privilege they have to belong to God's family and show them how they can respond to God's invitation to do so and *Advanced Placement*
