Before You Read

In this lesson, you will read about how and why we study history.

As You Read

Use a diagram to organize the lesson's main ideas and details.

GEOGRAPHY

How does geography affect how a civilization develops?

The people who study history are also the people who write about history. They piece together the information they find in order to understand people from the past. Their field of study is called **historiography**.

Social scientists also use geography to study history. The book *Guns, Germs, and Steel* looks at how geography helped and hurt civilizations in the past. Jared Diamond, the book's author, explained the three factors that helped Eurasian civilizations succeed: good temperatures and locations for agriculture, resistance to certain deadly germs, and the ability to develop technology.

Where a group of people settle can affect how, when, and in what way they

develop. The island nation of Japan was very isolated from the West before the mid-1800s. By the early 1900s, Japanese people were trading with the West and the country was considered a world power. Great Britain, also an island nation, developed much earlier. Britain was part of the Roman Empire. It later joined other European countries to start colonies around the world. The British had to develop a strong navy in order to protect its own empire around the globe.

1. Why did Japan develop later than Great Britain?

Lemmo,2001 A world history textbook chronicling the rise of Western and Eastern civilizations Includes photos art illustrated charts vocabulary exercises and review questions Resources in Education ,1999-10 History of the World (Teacher Guide) Kevin Swanson,2017-11-02 Course Objectives Students completing this course will Explore the history of the Church Learn about the lives of courageous missionaries around the world Understand the importance of spreading the Gospel Study current global missions needs Acquire geographical knowledge Vocabulary Study Having a good vocabulary is essential for students to be effective communicators thinkers and readers It is a skill that is applicable to any academic discipline including history Students should be encouraged to look up words that they do not know when they encounter them while reading Students will not do formal vocabulary activities in this course but a glossary has been provided for words that the students may find difficult or unfamiliar in the assigned reading Upon encountering an unknown word the student should consult the glossary provided at the back of the teacher guide and or a dictionary Students should also be aware that many of these words have multiple meanings It is important that students learn to use the context of these words in the text to help understand their meanings

Students are encouraged to maintain a list of these words and review them periodically throughout the course. Review could include writing the words and their definitions on index cards to use as flashcards, having students create their own dictionaries or using the words in sentences. This component of the course is entirely optional, however, and not built into the schedule. Using Vintage Books: One of the books included in this course, *Adventures in Missionary Heroism*, was originally published in the early 1900s. There is real value in reading vintage books like this one. These historical texts not only provide us with information but also insight into the attitudes and perceptions of people from that time. It is important to remember that vintage books can express attitudes and use terminology that is no longer considered appropriate. When students come across these moments in vintage books, it is the perfect opportunity for them to have a discussion with their teacher about this material. Teachers and students can use this opportunity to analyze the differences in attitudes between now and then as well as to review Biblical principles regarding issues like racism. These conversations will provide students a context for understanding the attitudes expressed in the text as well as help them develop their own skills of discernment and critical thinking when it comes to materials they are reading.

Their Eyes Were Watching God Close Reading and Text-Dependent Questions Jennifer Kroll, 2015-02-01. Students analyze *Their Eyes Were Watching God* using key skills from the Common Core. Close reading of the text is required to answer text-dependent questions. Included are student pages with the text-dependent questions as well as suggested answers.

Student Study Guide to The Ancient Egyptian World Eric H. Cline, Jill Rubalcaba, 2005-11. The Student Study Guide is an important and unique component that is available for each of the eight books in *The World in Ancient Times* series. Each of the Student Study Guides is designed to be used with the student book at school or sent home for homework assignments. The activities in the Student Study Guide will help students get the most out of their history books. Each Student Study Guide includes chapter-by-chapter two-page lessons that use a variety of interesting activities to help a student master history and develop important reading and study skills.
