

## Week 1:

When did the twentieth century start?

### Short Twentieth Century Versus Long Twentieth Century

- The difference is the starting point of the period they cover. (1870 - 1990) (1914 - 1991)
- Long twentieth century covers a broader range of historical events
- Short twentieth century focuses specifically on the major conflicts and political movements that defined the 1900s

### The People in 1900

- The world seemed crowded after a century of rapid population growth, with a total of 1,608 million people.
- The most densely populated part of the world was Europe. Germany had 56 million people, the Australian Empire 46 million, the United Kingdom 42 million, France 39 million, Italy 33 million, and Spain 19 million.

#### Mortality rate

- In Western Europe or the USA, a person could expect to live, on average, until nearly 50. But a Russian baby could expect to reach only just over 30; an Indian about 23.

### Labourers

- Most of the world's workers (7 out of every 10) still made their living from farming. In some countries. In southeast Asia and Russia, this proportion was 8/10; In some less developed parts, the proportion was 9/10. In Western Europe, the proportion was very different. For example, only one out of every 10 British people was engaged in agricultural work.
- In the century of a booming population, farm labourers had been drawn from the land to work in the factories, mines and shipyards

### 1900: An Increasingly Interconnected World:

- Trading Nations and Global Markets
- Development of transportation network and communication technology
- Economic Growth and urbanization

#### Global Trade

- Meat trade
- Tea trade
