Writing History in the Global Era Lynn Hunt, 2014-09-08. Leading historian Lynn Hunt rethinks why history matters in today's global world and how it should be written. Globalization is emerging as a major economic, cultural, and political force. In *Writing History in the Global Era*, historian Lynn Hunt examines whether globalization can reinvigorate the telling of history. She looks toward scholars from the East and West collaborating in new ways as they share their ideas. She proposes a sweeping reevaluation of individuals' active role and their place in society as the keys to understanding the way people and ideas interact. Hunt also reveals how surprising new perspectives on society and the self offer promising new ways of thinking about the meaning and purpose of history in our time.

Research in Education, 1972. **The Interwar World** Andrew Denning, Heidi J.S. Tworek, 2023-08-29. *The Interwar World* collects an international group of over 50 contributors to discuss, analyze, and interpret this crucial period in twentieth-century history. A comprehensive understanding of the interwar era has been limited by Euro American approaches and strict adherence to the temporal limits of the world wars. The volume's contributors challenge the era's accepted temporal and geographic framings by privileging global processes and interactions. Each contribution takes a global thematic approach, integrating world regions into a shared narrative. Three central questions frame the chapters: First, when was the interwar? Viewed globally, the years 1918 and 1939 are arbitrary limits, and the volume explicitly engages with the artificiality of the temporal framework while closely examining the specific dynamics of the 1920s and 1930s. Second, where was the interwar? Contributors use global history methodologies and training in varied world regions to decenter Euro American frameworks, engaging directly with the usefulness of the interwar as both an era and an analytical category. Third, how global was the interwar? Authors trace accelerating connections in areas such as public health and mass culture, counterbalanced by processes of economic protectionism, exclusive nationalism, and limits to migration. By approaching the era thematically, the volume disaggregates and interrogates the meaning of the global in this era. As a comprehensive guide, this volume offers overviews of key themes of the interwar period for undergraduates while offering up

to date historiographical insights for postgraduates and scholars interested in this pivotal period in global history **Escape from the Market** Michael Huberman, 1996-09-12 At the outset of the industrial revolution the Lancashire labour market was a model of thoroughgoing competition Wages adjusted quickly and smoothly to changes in the demand for and supply of labour Within two generations however workers and firms had retreated from the market Instead of busting wages firms paid fixed rates instead of breaking ties on short notice workers sought longer term associations Social norms doing the right thing protected and preserved the fresh labour market arrangements This book explains the causes and effects of changes in the labour market in the context of developments in labour economics and fresh research in social and economic history

Prostitution and the Ends of Empire Stephen Legg,2014-09-19 Officially confined to red light districts brothels in British India were tolerated until the 1920s Yet by this time prostitution reform campaigns led by Indian imperial and international bodies were combining the social scientific insights of sexology and hygiene with the moral condemnations of sexual slavery and human trafficking These reformers identified the brothel as exacerbating rather than containing corrupting prostitutes and the threat of venereal diseases and therefore encouraged the suppression of brothels rather than their urban segregation In this book Stephen Legg tracks the complex spatial politics surrounding brothels in the interwar period at multiple scales including the local regional national imperial and global Campaigns and state policies against brothels did not just operate at different scales but made scales themselves forging new urban provincial colonial and international formations In so doing they also remade the boundary between the state and the social through which the prostitute was Legg concludes civilly abandoned

Making Ireland Modern Enda Delaney,2025-10-02 A provocative and original reinterpretation of modern Irish history There is a widespread misconception that Ireland became modern much later than its neighbours in the 1960s and 1970s This is grounded in several enduring stereotypes and caricatures of Ireland as a timeless and unchanging land of saints and scholars of its society and culture in the long nineteenth century as puritanical regressive or archaic of Gaelic language and culture as backward or inward looking in contrast to a modern English counterpart and of the island as natural and rural in the face of the urban and technological progress of modernity Drawing on an extensive range of sources from poetry and novels to contemporary historical documents acclaimed historian Enda Delaney here offers a reinterpretation of Ireland s encounter with modernity that corrects these stereotypes By situating the island s history between 1780 and 1916 within its broader European global and colonial contexts he demonstrates that Ireland s pathway to modernity was not inevitable belated or uni directional over a complex and centuries long process it was made modern and in its own distinctive way This was related to but distinct from

Ireland's complicated colonial relationship with Britain and played out in the broader contexts of globalisation and the rise of capitalism. And at the heart of this history are the Irish people themselves both those who lived on the island and the millions of those who left during this period and made their lives in Britain, America, Australia and beyond who made sense of modernity in a variety of conflicting ways and in so doing sought to shape their own destinies and adapt the old ways of doing things in the face of relentless waves of progress. Changes in values, consciousness and beliefs interacted with broader social, political and cultural revolutions to create a distinctive experience of becoming modern. The result is a bold and wide-ranging new history of modern Ireland that restores agency to those who lived and made its history, raising important and timely questions about modernity, globalisation, modern history and post colonialism.
