Gordon B. Arnold,2013-04-09 This provocative book reveals how Hollywood films reflect our deepest fears and anxieties as a country often recording our political beliefs and cultural conditions while underscoring the darker side of the American way of life Long before the war in Iraq and the economic crises of the early 21st century Hollywood has depicted a grim view of life in the United States one that belies the prosperity and abundance of the so called American Dream While the country emerged from World War II as a world power collectively our sense of security had been threatened The result is a cinematic body of work that has America s decline and ruin as a central theme The author draws from popular films across all genres and six decades to illustrate how the political climate of the times influenced their creation *Projecting the End of the American Dream* Hollywood s Visions of U S Decline combines film history social history and political history to reveal important themes in the unfolding American narrative Discussions focus on a wide variety of films including Rambo Planet of the Apes and Easy Rider *Gender Violence in Late Antiquity* Jennifer Barry,2025 *Gender Violence in Late Antiquity* confronts the violent ideological frameworks underpinning the early Christian imagination arguing that gender based violence is not peripheral but is fundamental to understanding early Christian history By analyzing hagiographical and doctrinal writings Jennifer Barry reveals how male authors used portrayals of feminized suffering to shape ideals of sanctity and power exploiting themes of domestic abuse martyrdom and sexualized violence to reinforce their visions of piety The study first traces the roots of gendered violence within the Greco Roman and early Christian imagination and then explores the disturbing role of male fantasies and dreams in hagiographical traditions Barry draws on womanist scholarship and engages with trauma studies and feminist horror theory in order to challenge traditional readings of Christian texts offering new perspectives for understanding how narratives of violence continue to shape contemporary interpretations of gender and power **Dream: The Linking Stones** Tabitha R.
