Worldwide Scheduling Guidelines Effective January:

Creating Property Rights Margherita Colangelo, 2012-04-19 The creation by government regulation of entitlements akin to property rights is a widespread phenomenon imposing a reconsideration of the traditional categories of public and private property The allocation of such rights that lack an explicit legislative definition but are object of relevant social and legal interests is a very complex topic which has become very acute in cases where markets have been established for them The analysis of the systems created for the allocation and management of these rights is the core of this book which examines four emblematic examples airport slots spectrum rights milk quotas and emission allowances The book focuses on the European level including legislation and the most relevant policy issues by means of a comparative method involving private law public law and law and economics approaches *Army Exercises* United States. Committee on Finance. Subcommittee on International Trade, 1990 International Trade in Services and Domestic Regulations Panagiotis Delimatsis, 2007-12-27 In 2005 the WTO Appellate body ruled that the United States total prohibition on cross border gambling services was unlawful under the General Agreement on Trade in Services GATS The questions raised by the case whether and how a Government could block service provision on moral grounds went to the heart of key controversies surrounding international economic law How do you reconcile a liberal system of international trade in services with national governments desire to protect social values through service regulation How much control are the WTO members willing to transfer to the WTO How much regulatory diversity can the international trading system withstand This book provides a comprehensive analysis of the regulation of services under the WTO s GATS Agreement Through a thorough examination of the GATS negotiation history substantive provisions judicial interpretation and ongoing reform process the book presents a clear picture of how the multilateral trading system justifies and tolerates regulatory diversity In this respect the book focuses on the core general principles of necessity and transparency which would allow the assessment of the consistency with the GATS of domestic regulations in services at a horizontal cross sectoral level In addition the book reviews with a critical eye the ongoing GATS negotiations on the creation of rules on domestic regulations **Practitioner's**

Handbook on International Arbitration and Mediation - Third Edition Richard Chernick, Daniel M. Kolkey, Barbara Reeves Neal, 2012-04-01 The Practitioner s Handbook on International Arbitration and Mediation 3rd Edition is a unique work with each chapter written by a well known practitioner and expert in the field It covers each step of the international arbitration and mediation process and offers separate chapters that summarize the laws of leading arbitral venues This

Handbook is intended to make the reader into a better practitioner or arbitrator mediator Moreover each chapter has been written to provide practical advice and guidance Unlike many works with multiple authors this work is not simply a collection of essays on a general subject This book is a unified work with cross references among the chapters and a consistent format throughout The Practitioner s Handbook is divided into three parts Part One describes in detail each step of the international arbitration process and offers tips Part Two deals with each step and facet of an international mediation Each of these chapters is filled with Practitioners Expert Commentary Part Three summarizes the laws of leading arbitral jurisdictions like Hong Kong England Switzerland and France These chapters give you detailed guidance on the laws governing international arbitration in that particular jurisdiction As a result the chapters in Part Three are a bit more technical as the authors realized that the reader would need citations to and commentary on the local arbitration statutes and rules The CD ROM that accompanies this Work contains relevant original source material that is germane to the text A review of the table of contents of the material contained on the CD ROM will acquaint you with the range of material covered

The Origin of Injustice in Air and Space Law Joon Sik Jung,2015-02-02 The most important resources in civil aviation and commercial use of the outer space are legal rights to occupy certain space in airports and geostationary orbits respectively This book clarifies the nature of the rights called slots in both arena It then reviews both the domestic and international slot distribution mechanisms and Common Law principles therein
