## **Woulda Shoulda Coulda Overcoming Regrets Mistakes And Missed Opportunities:**

**Woulda, Coulda, Shoulda** Arthur Freeman, 1990-08-17 Who of us can claim never to have made a mistake missed a goal regretted a choice or suffered because of another's action For those who suffer from a constant sense of regret about the past who feel their present lives have been immutably shaped by actions they could or should or would have taken but didn't real help is at hand In clear uncomplicated language Dr Arthur Freeman a leading exponent of cognitive therapy and his colleague Rose DeWolf a skillful translator of the cognitive method describe the techniques and provide exercises that will enable readers to actually unblock the past The authors demonstrate that woulda coulda shoulda thinking can be unlearned and that this process can be accomplished in a relatively short period of time      Conditional Reasoning Raymond S. Nickerson, 2015 This book reviews the work of prominent psychologists and philosophers on conditional reasoning It provides empirical research on how people deal with conditional arguments and examines how conditional statements are used and interpreted in everyday communication It also includes philosophical and theoretical treatments of the mental processes that support conditional reasoning making it an ideal resource for students teachers and researchers with a focus in cognition across disciplines      **Solving Problems In Couples And Family Therapy** Robert Sherman, Paul Oresky, Yvonne Rountree, 2013-05-13 Aimed primarily at clinicians who are required to find ways to interrupt patterns of destructive behaviour in couples and families this text provides a compilation of multi disciplinary techniques and flexible strategies to accomplish 14 major therapeutic tasks      **The Moral Psychology of Regret** Anna Gotlib, 2019-10-21 What kind of an emotion is regret What difference does it make whether how and why we experience it and how does this experience shape our current and future thoughts decisions goals Under what conditions is regret appropriate Is it always one kind of experience or does it vary based on who is doing the regretting and why How is regret different from other backward looking emotions In *The Moral Psychology of Regret* scholars from several disciplines including philosophy gender studies disability studies law and neuroscience come together to address these and other questions related to this ubiquitous emotion that so many of us seem to dread And while regret has been somewhat under theorized as a subject worthy of serious and careful attention this volume is offered with the intent of expanding the discourse on regret as an emotion of great moral significance that underwrites how we understand ourselves and each other      **The Emotions** Rom Harré, W Gerrod Parrott, 1996-06-27 There is much that is fascinating here Long established experiments and conclusions are rubbished and reinterpreted long established assumptions and beliefs about emotions are soundly trounced and generally a good going over is delivered to the whole field it is such a blockbuster that one can only reel backwards and tell anyone studying the subject that they would be crazy not to get it Self the variation and diversity in emotion which provides scope for exploring how patterns of emotion contrast in different societies across gender lines at different historical times and between children and adults and the way in which the body is shaped and its functions influenced by culturally maintained patterns of emotion

Dattilio, 2013-06-29

This is the golden age of cognitive therapy Its popularity among society and the professional community is growing by leaps and bounds What is it and what are its limits What is the fundamental nature of cognitive therapy It is to my way of thinking

simple but profound To understand it it is useful to think back to the history of behavior therapy to the basic development made by Joseph Wolpe In the 1950s Wolpe astounded the therapeutic world and infuriated his colleagues by finding a simple cure for phobias The psychoanalytic establishment held that phobias irrational and intense fear of certain objects such as cats were just surface manifestations of deeper underlying disorders The psychoanalysts said their source was the buried fear in male children of castration by the father in retaliation for the son's lust for his mother For females this fear is directed toward the opposite sex parent The biomedical theorists on the other hand claimed that some as yet undiscovered disorder in brain chemistry must be the underlying problem Both groups insisted that to treat only the patient's fear of cats would do no more good than it would to put rouge over measles Wolpe however reasoned that irrational fear of something isn't just a symptom of a phobia it is the whole phobia
