This manual has been written with the Law Enforcement Firearms Instructor in mind It is an attempt to save the instructor  
time by furnishing already prepared outlines that cover most of the subject currently taught by and to law enforcement  
personnel The purpose of the manual is twofold First it can be used by current firearms instructors as a handy reference  
guide and also as a way of keeping all of the firearms outlines in one simple format By preparing the manual in this fashion  
all of an instructor s outlines are easily accessible should an instructor s class be challenged by the legal system Secondly  
this manual can be used as the text for firearms instructor initial certification classes Once the new instructor completes the  
basic certification course he or she will have a complete set of outlines that can be used for teaching their classes The first  
four outlines in this manual The Role of the Firearms Instructor Safety Responsibilities Record Keeping and Discipline are  
generally used during instructor development classes The rest of the outlines while also used in instructor development  
classes are also appropriate for basic recruit classes as well as classes that are designed for in service personnel The  
Appendix contains material that can be used as class handouts or made into overheads for class presentations Some of the  
courses can be used for general firearms qualification while others are used for training a specific skill such as linear and  
lateral movement or multiple attackers The manual has been written to take the pain out of the office work part of being a  
firearms instructor and to give the instructor more time to teach **Hostage Rescue Manual** Leroy Thompson,2005-01-08
