Remembering the Future Emma O'Donnell, 2015 Common to both Judaism and Christianity is a heightened engagement with time within liturgical practice in which collective religious memory and anticipation come together to create a unique sense of time Exploring the nebulous realms of religious experience and the sense of time *Remembering the Future* charts the ways that the experience of time is shaped by the traditions of Judaism and Christianity and experienced within their ritual practices Through comparative explorations of

traditional Jewish and Christian understandings of time contemporary oral testimonies and discussions of the work of select twentieth century Jewish and Christian thinkers this book maps the temporal landscapes of the religious imagination Maintaining that the sense of time is integral to Jewish and Christian religious experience Remembering the Future makes a notable contribution to interreligious studies and liturgical studies It sheds light on essential aspects of religious experience and finds that the intimacy of the experience of time grants it the capacity to communicate across religious boundaries subtly transgressing obstacles to interreligious understanding Memories and Blessings Rachmiel Tobesman, 2014-04-01

Absurd Holiday Traditions explores the fascinating world of unusual festive practices across different cultures Delving into World History and Social Science the book examines why certain holidays involve bizarre activities like throwing tomatoes or burning effigies revealing how these customs persist and shape cultural identity It highlights the surprising resilience of these traditions demonstrating how they reinforce social cohesion and provide outlets for emotional expression The book approaches its subject matter with a blend of historical context and contemporary social science tracing the origins of these practices and examining their modern day significance For example costume based celebrations sometimes seemingly terrifying often serve as a way for societies to confront and manage collective fears Unfolding in a structured manner the book begins by defining absurd traditions then progresses through case studies categorized by type such as food related festivities and effigy burning rituals before synthesizing broader implications for understanding cultural behavior *My*
