Kennedy, Marilyn Lawrence, 2009 This interdisciplinary collection of essays advances the study of anagnorisis recognition a quintessential concept in Aristotelian poetics This book explores narrative structure and epistemology by examining how anagnorisis works in narrative fiction music and film Contributors hail from the fields of cinema opera religion medieval and modern English German and French literatures comparative literature and Indian Sanskrit and Islamic Arabic literatures both classical and modern *Eric Voegelin and the Foundations of Modern Political Science* Barry Cooper, Eric Voegelin, 1999 Annotation This important new work is a major analysis of the foundation of Eric Voegelin's political science Barry Cooper maintains that the writings Voegelin undertook in the 1940s provide the

groundwork for the brilliant book that is one of his best known *The New Science of Politics* At the time of that book's publication however few were aware of the enormous knowledge and accomplished scholarship that lay behind its illuminating although sometimes baffling formulations By focusing on several of the key chapters in Voegelin's eight volume *History of Political Ideas* especially the studies of Bodin Vico and Schelling Cooper shows how those studies provide the basis for Voegelin's thought Investigating Voegelin's study of Oriental influences on Western political ideas especially Mongol constitutional law and his study of Toynbee Cooper seeks to demonstrate the vast range of materials Voegelin used Cooper contends that as with other great thinkers political crisis specifically the world war of 1939-1945 stimulated Voegelin's intellectual and spiritual achievement He provides an analysis of Voegelin's immediate concern with the course of World War II his ability to understand those dramatic events in a large context and his ability to provide an insightful account of the causes the significance and the consequences of the spiritual and political disorder that was evident all around him In *Eric Voegelin and the Foundations of Modern Political Science* Cooper makes the connection between Voegelin's political writings of the 1940s and the meditative interpretations that began to appear with the publication of *Anamnesis* and with the later volumes of *Order and History* much more intelligible than does any existing discussion of Voegelin Scholars in intellectual history and political science will benefit enormously from this valuable new addition to Voegelin studies

13 tragedy offers a newly edited and annotated text together with a full introduction and illustrative materials intended for student readers. The Duchess of Malfi's themes of love, loyalty, and betrayal have resonated through the centuries, making this a perennially popular play with audiences and readers alike. This volume includes a generous selection of supporting materials among them Webster's likely sources for the play, William Painter, George Whetstone, Simon Goulart, and Thomas Beard, as well as related works by Webster and George Wither on widows, funerals, and memorializing death. A generous selection from Mark H. Curtis's classic essay, "The Alienated Intellectuals of Early Stuart England," tells readers as much about the character of Bosola as it does about his creator, Henry Fitzgeffrey. 1617 and Horatio Busino 1618 provide early responses to the play. Criticism is thematically organized to provide readers with a clear sense of The Duchess of Malfi's central themes of dramaturgy, the politics of family, court, and religion, and gender. Also included are essays on contemporary reimaginings of the play and its critical reception over time. Contributors include Don D. Moore, Inga Stina Ewbank, Christina Luckyj, Barbara Correll, D. C. Gunby, Lee Bliss, Rowland Wymer, Brian Chalk, Theodora Jankowski, and Pascale Aebischer. A selected bibliography is also included.
