APPENDIX: SETUP MODE

In this section, where you are in direct control of your **CD-TEXT** feature, that means in your own words (OK, "your own" as in "your own" depending on what device you are programming the remote to operate).

There are three ways you can program your remote:

- **Quick Set-Up Method**
- **The Pre-Programmed 3-Digit Code Method**
- **The Auto-Search Method**

The **Quick Set-Up Method** is a unique feature that enables the fastest and easiest setup by using a 3-digit code that is a general assignment for devices made by popular manufacturers.

The **Pre-Programmed 3-Digit Code Method** allows you to setup all of the buttons, at once, by entering 3-digit codes that correspond with the component manufacturer's code tables for this method are on the backside of the operating instructions.

The **Auto-Search Method** works through all of the codes in the remote control, one at a time, allowing you to identify the correct code.

IMPORTANT! SET UP MODE

This portion of all programming starts when you use a button to mode the device **CD-TEXT** on (right)? If correct, if you do not see a code on the LCD screen, the **CD-TEXT** will turn off and you cannot continue. If you do not see a code on the LCD screen, the **CD-TEXT** will turn off and you cannot continue. If you do not see a code on the LCD screen, the **CD-TEXT** will turn off and you cannot continue.

- STEP 1** Turn on the equipment you want to program. To program your TV, turn on the TV.
- STEP 2** Press the remote's **Off** (power) button and press and hold the **[INFO]** key for 4 seconds until the Device LED blinks off and turns back on. Continue holding the **[INFO]** key as you press the number keys, one at a time, starting with 1, then 2, 3, & 4. Stop pressing the number keys when the device turns off.
- STEP 3** Release the **[INFO]** key to save the code. The Device LED will blink twice to confirm the code is stored.

Repeat the steps above for all components (CBL, TV, VCR, DVD, AUDIO).

STEP 1 Turn on the equipment that you want the remote control to operate (Cable Box, TV, VCR, DVD, etc.).

STEP 2 Press the **DEVICE** button and the **ENTER** button simultaneously for three seconds. The corresponding device LED will start indicating that it is ready to be programmed. The LED will remain on for 30 seconds. The first step must be entered twice for USB use.

STEP 3 Point the remote control toward the equipment and enter the three-digit code number assigned to your brand from the code table. If there are more than one three-digit numbers listed for your brand, try one code number at a time until your equipment turns off.

NOTE: You can verify the code number by pointing the remote control at the equipment and pressing the **POWER** button. The equipment should turn off. If there is still no response, or if the equipment continues to be powered on, then the three-digit code listed in the table is not the correct code for the brand of the equipment. Repeat the instructions in **STEP 1** above when the next three-digit code number from the table is tried.

STEP 4 Store the three-digit code by pressing the same **DEVICE** button once again. The device LED will blink twice to confirm that the code has been stored.
