

# AutoTEST Renault Fuego GTX

*Exciting overall,  
disappoints in  
detail*

*An arresting  
combination of  
styling and  
aerodynamics,  
showing that such  
sometimes  
quarrelling  
disciplines can be  
married.*

*Some sketches,  
before the design  
was finalized,  
from the Renault  
styling studio*

RENAULT announced the Fuego coupé in March this year, an originally seven-strong range replacing and notably enlarging upon the Renault 15/17 which ceased production in the summer of 1978. They say that the Fuego — pronounced foo-ay-go as in Terra del Fuego (land of fire) — is not a new top on a Renault 18 bottom, although it does use the rear dead axle from that car on all models and the 1400 18TL iron-block ohv and its four-speed transaxle in the smallest-engined Fuego; its leading dimensions, wheelbase, track, length and width are, however, within an inch of the 18, with the exception of the overall height, which is 3½in. lower.

It has wishbone front suspension (first used on the Renault 20 late in 1979), lighter than the 18's, with negative offset for the steering. Steering is rack and pinion, sensibly geared up as it should be when power assistance is fitted. The back axle is located by trailing links, longer than the 18's, and transversely by a horizontal A-bracket, again peculiar to the Fuego. Stiffish anti-roll bars are used at both ends. Brakes (GTX)

are ventilated disc in front, drum rear, with servo and twin circuits split front/rear. A load-sensing pressure-limiting valve in the rear circuit is designed to prevent premature rear locking. The two-door hatchback body looks well-shaped and going by Renault's claims for it in the St

Cyr wind tunnel, it is unusually low in drag, with the best drag coefficient (0.347) of its class; only one Citroën, the GSX (0.343) and Lotus's very sleek Esprit (0.341) better it, and then not by much. There are three engines, 1,397 c.c. ohv iron block (as in the 18TL, and not the Douvrin-built ohc 1,381 c.c. of the 14TS), 1,647 c.c. all aluminium ohv (ex 17TS) and

1,995 c.c. all aluminium ohc Douvrin as fitted to the 20TS. Turning attention to the subject of this Road Test, the Fuego GTX is the top range model. It and its sister 2-litre the TX are the only Fuegos with a new gearbox, a five-speed unit with slightly higher intermediate gears than the older five speed offered in the GTX. The engine now has integral electronic ignition, which senses engine speed from the flywheel starter ring and engine vacuum from an aneroid capsule moving coil transducer in the intake manifold. The engine is in the same tune as in the 20TS, producing a claimed 110 bhp at 5,500 rpm, with 120 lb ft maximum torque at 3,000 rpm. With a 3.778 final drive and Pirelli P6 185/65HR14in. tyres, the car is geared as a sports five-speed rather than an overdrive one, the engine's peak power speed corresponding at 20.86 mph per 1,000 rpm to 115 mph.

**Performance**  
*Excellent*

Renault claim a top speed of 118 mph, but the test car managed a mean maximum of 113½ mph and a best one way of 114 in

**Renault Fuego GTX**  
Renault's new coupé range, now on sale in Britain, replacing the previous 15/17 coupé. Test car is top range model, with 2-litre Renault 20TS engine, five-speed gearbox driving through front wheels, wishbone independent front suspension, dead axle at the rear. Body has exceptional aerodynamic claims. Steering is integrally power-assisted rack and pinion, brakes ventilated disc in front.
