

RENAULT "HANDS-FREE" CARD: use (2/3)

Locking the vehicle

There are three ways to lock the vehicle: remotely, using the button **3**, or using the RENAULT card.

Remote locking

With the RENAULT card on you, and doors and tailgate closed, move away from the vehicle: it will lock automatically once you have left zone **1**.

Note: the distance at which the vehicle locks depends on the surroundings.

The hazard warning lights flash twice and a beep sounds to indicate that the doors have locked.

The beep may be switched off. Consult an approved Dealer.

If a door or the tailgate is open or not properly closed, or a card is in the passenger compartment (or the card reader) the vehicle will not lock. In this situation, no beep sounds and the hazard warning lights do not flash.

Locking using the button **3**

If you want to lock your vehicle, the card must be nearby (adjacent garage etc.), with the door and boot closed. Press button **3** on the handle of the driver's door. The vehicle will lock. If a door or the boot is open or not closed properly, the vehicle will quickly lock/unlock.

Note: a RENAULT card must be within the vehicle's access zone (zone **1**) to be able to lock the vehicle using the button.

Special note

If you wish to check that the doors are locked after locking using the button **3**, you have approximately three seconds to try the door handles without unlocking them.

After this delay, the hands-free mode is activated once again and any movement of a handle will unlock the vehicle.

If the vehicle is fitted with remote window closing, two quick presses on the button **3** automatically causes all the windows to close and the doors to lock (please see the information on "Electric windows, Electric sunroof" in Section 3).

Handbook of

Collaborative Management Research A. B. Shani, Susan Albers Mohrman, William A. Pasmore, Bengt Stymne, Niclas Adler, 2007-08-23 This handbook provides the latest thinking methodologies and cases in the rapidly growing area of collaborative management research What makes collaborative management research different is its emphasis on creating a close partnership between scholars and practitioners in the search for knowledge concerning organizations and complex systems In the ideal situation scholars and their managerial partners would work together to define the research focus

develop the methods to be used for data collection participate equally in the analysis of data and work together in the application and dissemination of knowledge The handbook contains insightful reflections on the state of the art as well as detailed descriptions of the collaborative efforts of an international group of leading edge academics and their practitioner counterparts The applications of collaborative research methods included in this volume include those aimed at individual development organizational development regional development efforts and economic policy The insights from the cases suggest that collaborative management research has been a highly effective means of getting at issues that other research methods and intervention techniques have failed to address The rationale for conducting this highly engaging type of research is explored in the first section of the handbook followed by sections that offer new methodologies descriptive cases views from those directly involved and issues and enablers about the use of this approach in advancing knowledge and practice The handbook does appeal to scholarly practitioners as well as practical scholars **News of the Swimmer**
