Hope in Hard Times Paul Rogat Loeb,1987 *The Search for the Sacred: Is Holiness a State of Space, Time or Mind?* Rabbi David Paskin,2016-07-28 Rabbi David Paskin s The Search for the Sacred is an articulate amplification of the Torah s command to be holy to fully BE How urgently needed this message in today s increasingly fragile world How blessed we are to be granted access to this curated collection of wisdom from one of our great teachers Menachem Creditor Rabbi Congregation Netivot Shalom Berkeley CA Founder Rabbis Against Gun Violence The search for the sacred has taken people of faith and those still navigating the waters of belief far and wide We have built majestic cathedrals and meditated quietly as we ve walked on the sea shores We have found quiet moments in the hustle and bustle of our busy days and religiously attended communal prayer gatherings In The Search for the Sacred David explores the history of this search and how we can continue to find holiness in our lives today

Youth and Politics in Times of Increasing Inequalities Marco Giugni,Maria Grasso,2021-07-22 Young people are very often the driving forces of political participation that aims to change societies and political systems Rather than being depoliticized young people in different national contexts are giving rise to alternative politics Drawing on original survey data collected in 2018 this edited volume provides a detailed analysis of youth participation in nine European countries by focusing on socialization processes different modes of participation and the mobilization of youth politics This volume is an indispensable guide to understanding young European s experience and engagement of politics the inequalities that shape young people s political engagement and are sometimes replicated through them and young people s commitment to saving the environment and spreading democratic ideals Based on compelling and extensive research across nine nations this volume makes important advances in key debates on youth politics and provides critical empirical insights into which young people engage influences on young people s politics how young people engage why some young people don t engage and trends across nations The volume succeeds in the herculean task of focusing on specific national contexts while also rendering a comprehensive picture of youth politics and inequality in Europe today Jennifer Earl Professor of Sociology University of Arizona USA Forecasts by social scientists of young people s increasingly apathetic stance towards political participation appear to have been misplaced This text drawing data and analysis across and between nine European countries captures the changing nature of political activism by young people It indicates how this is strongly nuanced by factors such as social class and gender identity It also highlights important distinctions between young people s approaches towards more traditional electoral and more contemporary non institutional forms of participation Critically it illuminates the many ways in which youth political participation has evolved and transformed in recent years Wider social circumstances and experiences are identified as highly significant in preparing young people for and influencing their levels of participation in both protest oriented action and electoral politics Howard Williamson Professor of European Youth Policy University of South Wales UK This book is an incredible guide to understanding the role and sources of

inequalities on young people's political involvement Country specific chapters allow the authors to integrate a large number of the key and most pressing issues regarding young people's relationship to politics in a single volume Topics range from social mobility and the influence of socioeconomic parental resources and class young people's practice in the social sphere the intersection of gender with other sources of inequalities online participation and its relationship with social inequalities the impact of harsh economic conditions the mobilization potential of the environmental cause to the role of political organizations Integrating all these pressing dimensions in a common framework and accompanying it with extensive novel empirical evidence is a great achievement and the result is a must read piece for researchers and practitioners aiming to understand the challenges young people face in developing their relationship to politics Gema Garc a Albacete Associate Professor of Political Science University Carlos III Madrid Spain
