Time Tunnel Episode Guide:

Irwin Allen Television Productions, 1964-1970 Jon Abbott, 2015-06-14 Before establishing himself as the master of disaster with the 1970s films *The Poseidon Adventure* and *The Towering Inferno* Irwin Allen created four of television's most exciting and enduring science fiction series *Voyage to the Bottom of the Sea* *Lost in Space* *The Time Tunnel* and *Land of the Giants* These 1960s series were full of Allen's favorite tricks techniques and characteristic touches and influenced other productions from the original *Star Trek* forward Every science fiction show owes something to Allen yet none has equaled his series pace excitement or originality This detailed examination and documentation of the premise and origin of the four shows offers an objective evaluation of every episode and demonstrates that when Irwin Allen's television episodes were good they were great and when they were bad they were still terrific fun **I Talked with a Zombie** Tom

Weaver, 2009-01-23 I talked with a zombie it DOES seem like an odd thing to say But for more than 25 years Tom Weaver has been chatting up zombies and many other vintage movie monsters along with the screenwriters producers directors and actors responsible for bringing them to life In this compilation of interviews 23 more veterans share their stories strange frightening and even a little funny this time with an increased emphasis on genre television series courtesy of the stars of *The Time Tunnel* *Rocky Jones Space Ranger* *Tom Corbett Space Cadet* *Planet of the Apes* and *The Wild Wild West* The many other interviewees include Tandra Quinn Mesa of *Lost Women* Eric Braeden *Colossus* *The Forbin Project* Ann Carter *The Curse of the Cat People* Laurie Mitchell *Queen of Outer Space* and monster music maestro Hans J Salter **An Analytical**

Guide to Television's Battlestar Galactica John Kenneth Muir, 2015-09-15 When the space drama *Battlestar Galactica* debuted on ABC in 1978 it was expected to be the most popular new program of the year Instead it was attacked as a *Star Wars* rip off and canceled after a mere 17 stories The author acknowledges the show was full of dramatic cliches and scientific inaccuracies but despite these shortcomings *Battlestar Galactica* was a dramatically resonant series full of unique and individual characters such as Commander Adama Lorne Greene and ace warrior Captain Apollo Richard Hatch The author contends that *Battlestar Galactica* was a memorable attempt to make science fiction accessible to mainstream television audiences The brilliant work of artist John Dykstra brought a new world of special effects to network television *Battlestar Galactica* also skillfully exploited legends and names from both the Bible and ancient mythology which added a layer of depth and maturity to the weekly drama *An Analytical Guide to Television's One Step Beyond, 1959-1961* John

Kenneth Muir, 2010-06-21 *Alcoa Presents One Step Beyond* made its television debut in 1959 nine months before Rod Serling's classic *The Twilight Zone* and paved the way for a generation of television programs devoted to paranormal topics such as the occult ESP and ghost stories *One Step Beyond* was also where some of Hollywood's most famous leading men including Warren Beatty William Shatner and Charles Bronson got their starts in television This complete reference work to the 96 half hour episodes that ran for three seasons on ABC also offers a detailed history extensive commentary and summaries of the

critical reception of *One Step Beyond* as well as coverage of the sequel series produced in 1978 entitled *The Next Step Beyond*. Complete credits for both series are provided.

To Boldly Go Djoymi Baker, 2018-03-06 Today's media cinema and TV screens are host to new manifestations of myth. Their modes of storytelling radically transformed from those of ancient Greece. They present us with narratives of contemporary customs and belief systems. Our modern day myths. This book argues that the tools of transmedia merchandising and promotional material shape viewers' experiences of the hit television series *Star Trek* to reinforce the mythology of the gargantuan franchise. Media marketing utilises the show's method of recycling the narratives of classical heritage yet it also looks forward to the future. In this way it reminds consumers of the *Star Trek* story's ongoing centrality within popular culture whether in the form of the original 1960s series, the later additions such as *Voyager* and *Discovery* or J.J. Abrams' reboot films. Chapters examine how oral and literary traditions have influenced the series structure and its commercial image; how the cosmological role of humanity and the Earth are explored in title sequences across various *Star Trek* media platforms; and the multi-faceted way in which Internet video game and event spin-offs create rituals to consolidate the space opera's fan base. Fusing key theory from film, TV media and folklore studies as well as anthropology and other specialisms, *To Boldly Go* is an authoritative guide to the function of myth across the whole *Star Trek* enterprise.

The Hitler Filmography Charles P. Mitchell, 2015-07-11 From the time his Nazi regime launched World War II to the present, Adolf Hitler has frequently been depicted on film. He was largely ridiculed at first since laughter was a powerful weapon and morale booster for nations at war. Later representations were more somber and realistic yet Hitler's image never escaped the undertone of scorn. This book concentrates exclusively on portrayals of Hitler in feature films and television miniseries. The filmography covers films with a factual historical storyline, fictional stories, alternate histories, parodies and films where actors playing Hitler have a cameo. Each entry provides production credits, an annotated cast list, an analysis and synopsis of the film, an evaluation of the actor playing Hitler in terms of the strengths and weaknesses of his portrayal and representative quotations from the film.
