Krantz, 2016-06-10 Two scientific researchers Kate Rogers and Dave Matheson are working in the Congo when they mysteriously disappeared Matheson is soon found on the sparsely populated Navajo Reservation thousands of miles from where he d been working after a family comes across him They get him to the Chinle BIA hospital where it is discovered he has been brutally attacked by an unknown animal as he babbles nonsense about foam quantum and dragons Matheson screams about Kate Rogers and how sorry he is Matheson then dies a short while later from a severe bacterial infection and his death is reported to James Larkin in Brussels at the ITRC Research Institute His partner and scientist Kate Rogers has not been heard from and presumed lost or dead but no one knows where Ed Tevis Larkin s lead scientist tells Larkin that he believes Kate has been accidentally swept back in time into an ancient world through a time vortex created by Larkins ITRC quantum computer and that the markers created will find Kate Larkin decides not to report Matheson s death to the authorities but insists on sending a party back to the Congo to rescue Rogers not because he cares about her but because he wants to patent time travel and make millions of dollars Larkin tells Gwyn Stone his organization s attorney and fixer to contact Seth Conner a prominent paleontologist and entice him to travel back in time to rescue Kate using whatever it takes Connor is skeptical of the time continuum theory but after Stone offers him a large sum of money to go he decides to take the

risk Seth understands if he actually goes back in time and succeeds in finding Kate Rogers alive that's only half the battle. Getting back home is the other half which will completely depend on them keeping the single marker he has and with it locating a vortex then be able to open it near flat land with running water. That proves difficult since they are prey to many ancient animals. Fail and all is lost. Even if they both survive there is the chance they could be stranded in the Cretaceous world where dinosaurs are kings living breathing and eating a lethal world that to date Seth Connor had only studied by digging up bones of these ancient beasts. Can he do this? Is Kate still alive?

Jurassic Time Riders is a suspenseful story one full of action and adventure focused on Seth Connors journey to find Kate Rogers stuck in the past. If they survive this dangerous lethal world will they get back home?
