Frank Baum published on June 19, 1914. The book actually has little to do with Tik Tok and is primarily the quest of the Shaggy Man introduced in *The Road to Oz* to rescue his brother and his resulting conflict with the Nome King. The endpapers of the first edition held maps of Oz itself and one of the continent on which Oz and its neighboring countries belonged. These were the first maps printed of Oz. **Oz and the Musical** Ryan Bunch, 2023 From the first stage production of *The Wizard of Oz* in 1902 to the classic MGM film 1939 to the musicals *The Wiz* 1975 and *Wicked* 2003 L. Frank Baum's children's novel *The Wonderful Wizard of Oz* 1900 has served as the basis for some of the most popular musicals on stage and screen. In this book musical theater scholar Ryan Bunch draws on his personal experience as an Oz fan to explore how a story that has been hailed as the American fairy tale serves as a guide for thinking about the art form of the American musical and how both reveal American identity to be a utopian performance. Show by show Bunch highlights the forms and conventions of each musical work as practiced in its time and context such as the turn of the century extravaganza, the classical Hollywood film musical, the Black Broadway musical of the 1970s, and the twenty-first century mega musical. He then shows how the journey of each show teaches participants and audiences something about how to act American within contested frameworks of race, gender, sexuality, age, and embodiment. Bunch also explores how home theatricals, make-believe play school musicals, Oz-themed environments, and community events as sites where the performance of the American fairy tale brings home and utopia into contact through the conventions of the musical. Using close readings of the various Oz shows, personal reflections, and interviews with fans, audiences, and performers, Bunch demonstrates how adapted Oz musicals imply both inclusions and exclusions in the performance of an American utopia. **The Characters of Oz** Dina Schiff Massachi, 2023-07-20 When L. Frank Baum wrote *The Wonderful Wizard of Oz* he created an American myth that has endured the test of time. Echoes of Dorothy and her friends are everywhere; popular television shows often have an Oz episode; novelists borrow character types and echo familiar scenes; and every media from Broadway to *The Muppets* has some variation or continuation of Baum's work. This collection of essays follows Baum's archetypal characters as they've changed over time in order to examine what those changes mean in relation to Oz, American culture, and basic human truths. Essays also serve as a bridge between academia and fandom, with contributors representing a cross section of Oz scholarship from backgrounds including The International Wizard of Oz Club and the Children's Literature Association. **Tik-Tok of Oz: the Oz Books #8** Lyman Baum, 2020-10-26 The fun begins in an isolated corner of Oz in the small country of Oogaboo.
