Buddhist cave temples dating from the early seventh to the early eighth centuries preserve an unparalleled one hundred year sequence of architectural and iconographical development. They reveal the evolution of a Buddhist mandala at sites in other regions often considered peripheral to the heartland of Buddhism in eastern India. At Ellora the mandala ordinarily conceived as a two dimensional diagram used to focus meditation is unfolded into the three dimensional program of the cave temples themselves enabling devotees to walk through the mandala during worship. The mandala's development at Ellora is explained and its significance is considered for the evolution of Buddhist art and iconography elsewhere in India. *National*

Divided into four parts, the encyclopaedia contains: A a chronology of events by year with cross references to other years; B arrangement of the events by calendar dates; C a list of important dynasties; and D a full index section as well as an extra feature.
