Martin's Guide to Writing Rise B. Axelrod, Charles R. Cooper, 2010-01-26 This textbook provides instruction in college level rhetoric and writing. It offers readings, a research manual, a handbook, and supports a range of approaches to teaching and learning including collaboration, visual rhetoric, personal writing, writing about literature, writing in the community, and the workplace. Field research, portfolios, oral presentations, essay exams, and ESL. It contains step-by-step guides to writing specific kinds of essays: remembering events, writing profiles, explaining a concept, finding common ground, arguing a position, proposing a solution, justifying an evaluation, speculating about causes, and interpreting stories. Because so much college writing requires strong argumentation skills, four of the assignment chapters focus on argumentative writing, and a separate strategies chapter covers theses, reasons, and support, counterarguments, and logical fallacies. Three full chapters on research give students useful strategies not only for conducting field, library, and Internet research, but also for evaluating sources, deciding whether to quote, paraphrase, or summarize, avoiding plagiarism, and documenting sources. The authors have included 39 readings by well-known authors and various fresh voices, including 12 students, providing well-written examples of the different types of essays and papers that students might be asked to complete **61 Cooperative Learning**

Okun, 2015-06-11 Increasingly, writing handbooks are seen as over-produced and overpriced. One stands out: *The Broadview Guide to Writing*. It is published in an elegant but simple format and sells for roughly half the price of its fancier-looking competitors. For the sixth edition, the coverage of MLA, APA, Chicago, and CSE styles of documentation has been substantially expanded, as well as updated. Also expanded is coverage of academic argument, of writing and critical thinking, of writing about literature, of paragraphing, of how to integrate quoted material into one's own work, of balance and parallelism, and of issues of gender, race, religion, etc. in writing. The chapter *Seeing and Meaning: Reading and Writing About Visual Images* is entirely new. The online materials, including the selection of interactive exercises, have also been revised considerably.
