Escoffery, 2014-12-03 American viewers are attracted to what they see as the non scripted unpredictable freshness of reality television But although the episodes may not be scripted the shows are constructed within a deliberately designed framework

reflecting societal values The political economic and personal issues of reality TV are in many ways simply an exaggerated version of everyday life allowing us to identify perhaps more closely than we care to admit with the characters onscreen With 16 essays from scholars around the world this volume discusses the notion of representation in reality television It explores how both audiences and producers negotiate the gulf between representations and truth in reality shows such as Survivor The Apprentice Big Brother The Nanny American Idol Extreme Makeover Joe Millionaire and The Amazing Race Various identity categories and character types found in these shows are discussed and the accuracy of their television portrayal examined Dealing with the concept of reality audience reception gender roles minority portrayal and power issues the book provides an in depth look at what we see or think we see in reality TV Instructors considering this book for use in a course may request an examination copy here *Luxury and American Consumer Culture* Arthur Asa Berger, 2021-06-22 Using concepts from semiotics psychoanalytic theory sociology and Marxism this book analyzes the role of luxury in American consumer culture It offers case studies that deal with how our love of luxury affects our choices of automobiles homes restaurants cruises department stores and hotels It also adopts a global perspective and features analyses of luxury in China Iran Germany Monaco Russia and Turkey by scholars from those countries **Unbecoming Blackness** Antonio Lopez, 2012-11-26 2014 Runner Up MLA Prize in United States Latina and Latino and Chicana and Chicano Literary and Cultural Studies In *Unbecoming Blackness* Antonio Lopez uncovers an important otherwise unrecognized century long archive of literature and performance that reveals Cuban America as a space of overlapping Cuban and African diasporic experiences Lopez shows how Afro Cuban writers and performers in the U S align Cuban black and mulatto identities often subsumed in the mixed race and postracial Cuban national imaginaries with the material and symbolic blackness of African Americans and other Afro Latinas/os In the works of Alberto O Farrill Eusebia Cosme R mulo Lachata er and others Afro Cubanness articulates the African diasporic experience in ways that deprive negro and mulatto configurations of an exclusive link with Cuban nationalism Instead what is invoked is an unbecoming relationship between Afro Cubans in the U S and their domestic black counterparts The transformations in Cuban racial identity across the hemisphere represented powerfully in the literary and performance cultures of Afro Cubans in the U S provide the fullest account of a transnational Cuba one in which the Cuban American emerges as Afro Cuban American and the Latino as Afro Latino *Business 2.0*, 2004-07

Bedford's Tech Edge, 2003 *Mediaweek*, 2007-04 *PC Gamer*, 2005 **Standardizing Minority Languages** Pia Lane, James Costa, Haley De Korne, 2017-09-22 The Open Access version of this book available at <https://www.taylorfrancis.com/books/9781138125124> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license This volume addresses a crucial yet largely unaddressed dimension of minority language standardization namely how social actors engage with support negotiate resist and even reject such processes The focus is on social actors rather than language as a means for analysing the complexity and tensions inherent in contemporary standardization processes By

considering the perspectives and actions of people who participate in or are affected by minority language politics the contributors aim to provide a comparative and nuanced analysis of the complexity and tensions inherent in minority language standardisation processes Echoing Fasold 1984 this involves a shift in focus from a sociolinguistics of language to a sociolinguistics of people The book addresses tensions that are born of the renewed or continued need to standardize language in the early 21st century across the world It proposes to go beyond the traditional macro micro dichotomy by foregrounding the role of actors as they position themselves as users of standard forms of language oral or written across sociolinguistic scales Language policy processes can be seen as practices and ideologies in action and this volume therefore investigates how social actors in a wide range of geographical settings embrace contribute to resist and also reject aspects of minority language standardization

The Long Shadow of Extraction Christopher L. Carter, 2025-09-09 How resistance to extraction shaped Indigenous demands for autonomy integration or assimilation From the onset of colonialism Indigenous communities have faced seizure of their land labor and resources by non Indigenous actors In *The Long Shadow of Extraction* Christopher Carter argues that the native groups resistance to extraction took distinct forms and that this variation explains why some communities demanded autonomy while others demanded integration or assimilation Countering existing scholarship that assumes a universal demand for autonomy Carter shows that some Indigenous communities in fact refused government offers to recognize their local political authority and longstanding economic institutions Carter argues that contemporary Indigenous demands were forged in early twentieth century efforts to resist extraction Drawing on two emblematic Latin American cases Peru and Bolivia Carter shows that in communities where traditional Indigenous leaders organized resistance ethnic mobilization occurred and gave rise to enduring demands for autonomy or state recognition of Indigenous identities and institutions In communities where unions and leftist parties organized resistance class based mobilization became the norm This led communities to reject autonomy and demand instead integration state recognition of Indigenous identities but not Indigenous institutions or assimilation state recognition of neither Indigenous identities nor institutions Carter s groundbreaking account of Indigenous resistance has important implications for understanding not only the historical emergence of autonomy but variations in identity based mobilization in multiethnic democracies
