Oil & Gas Journal, 1928 *Western Machinery and Steel World ...*, 1925 **Torch of Freedom** David Weber, Eric Flint, 2009-11-01 Someone is assassinating the leaders of both the Star Kingdom of Manticore and the recently liberated former slave planet of Torch Though most believe the Republic of Haven is behind the murders Anton Zilwicki and Havenite secret agent Victor Cachat believe there is another sinister player behind the scenes Queen Berry of Torch narrowly escaped one assassination attempt and a security officer from Beowulf has been assigned to protect her a task complicated by the young monarch's resentment of bodyguards and the officer's growing attachment to her Meanwhile powerful forces in the Solarian League are maneuvering against each other to gain the upper hand not realizing or perhaps not caring that their power struggle is threatening the League's very existence and could plunge the galaxy into war Once again New York Times best selling authors David Weber and Eric Flint join forces in an exciting new novel in the Honorverse At the publisher's request this title is sold without DRM Digital Rights Management **Naval Warfare 1919-45** Malcolm H.

Murfett, 2008-11-04 *Naval Warfare 1919-45* is a comprehensive history of the war at sea from the end of the Great War to the end of World War Two Showing the bewildering nature and complexity of the war facing those charged with fighting it around the world this book ranges far and wide sweeping across all naval theatres and those powers performing major as well as minor roles within them Armed with the latest material from an extensive set of sources Malcolm H Murfett has

written an absorbing as well as a comprehensive reference work He demonstrates that superior equipment and the best intelligence ominous power and systematic planning vast finance and suitable training are often simply not enough in themselves to guarantee the successful outcome of a particular encounter at sea Sometimes the narrow difference between victory and defeat hinges on those infinite variables the individual s performance under acute pressure and sheer luck Naval Warfare 1919 45 is an analytical and interpretive study which is an accessible and fascinating read both for students and for interested members of the general public *Library of Congress Subject Headings* Library of Congress. Matheny,2012-10-09 Military commanders turn tactics into strategic victory by means of operational art the knowledge and creative imagination commanders and staff employ in designing synchronizing and conducting battles and major operations to achieve strategic goals Until now historians of military theory have generally agreed that modern operational art developed between the first and second world wars not in the United States but in Germany and the Soviet Union whose armies were supposedly the innovators and greatest practitioners of operational art Some have even claimed that U S forces struggled in World War II because their commanders had no systematic understanding of operational art Michael R Matheny believes previous studies have not appreciated the evolution of U S military thinking at the operational level Although they may rightly point to the U S Army s failure to modernize or develop a sophisticated combined arms doctrine during the interwar years they focus too much on technology or tactical doctrine In his revealing account Matheny shows that it was at the operational level particularly in mounting joint and combined operations that senior American commanders excelled and laid a foundation for their country s victory in World War II Matheny draws on archival materials from military educational institutions planning documents and operational records of World War II campaigns Examining in detail the development of American operational art as land sea and air power matured in the twentieth century he shows that contrary to conventional wisdom U S war colleges educated and trained commanders during the interwar years specifically for the operational art they employed in World War II After 1945 in the face of nuclear warfare the American military largely abandoned operational art But since the Vietnam War U S commanders have found operational art increasingly important as they pursue modern global and expeditionary warfare requiring coordination among multiple service branches and the forces of allied countries *All Behind You*, Winston Roger Hermiston,2016-04-07 All Behind You Winston tells the story of the most remarkable gathering of leaders in modern British history the War Ministry that saw the country through its darkest and finest hour When Winston Churchill became Prime Minister on 10 May 1940 it was not with the unanimous support of Westminster or the country For many Lord Halifax was the obvious choice to succeed Neville Chamberlain and Churchill s grasp of the Home Front appeared uncertain at best He assembled around him however a Cabinet of all the talents which would variously mobilise arm feed

fund shelter evacuate heal and ultimately save Britain Among these remarkable men and women were Churchill's rivals Lord Halifax and Sir Stafford Cripps the loyal and dogged Clement Attlee titanic egos such as Lord Beaverbrook and John Reith the popular department store owner Lord Woolton the man who kept the nation fed the propagandist and playboy Duff Cooper and many of the statesmen who would go on to build the New Jerusalem in peacetime By 1945 they had not only steered the country to victory they had also ensured Churchill's inviolable position in our national myth an outcome that had seemed far from likely five years earlier In a series of character driven chapters Roger Hermiston a former deputy editor on Radio 4's Today and the author of The Greatest Traitor tells the behind closed doors story of the key figures and key ministries delving deep into the archives to bring to life a Cabinet that was both the brain and the conscience of the nation

Operation Crossbow Allan Williams,2013-05-30 The story of the photographic

intelligence work undertaken from a country house at Medmenham Buckinghamshire is one of the great lost stories of the Second World War At its peak in 1944 almost 2 000 British and American men and women worked at the top secret Danesfield House interpreting photographs the majority stereoscopic so they could be viewed in 3D to unlock secrets of German military activity and weapons development Millions of aerial photographs were taken by Allied pilots flying unarmed modified Spitfires and Mosquitos on missions over Nazi Europe it was said that an aircraft could land the photographs be developed and initial interpretation completed within two hours marking the culmination of years of experiments in aerial intelligence techniques Their finest hour began in 1943 during the planning stages of the Allied invasion of Europe when Douglas Kendall who masterminded the interpretation work at Medmenham led the hunt for Hitler's secret weapons Operation Crossbow would grow from a handful of photographic interpreters to the creation of a hand picked team and came to involve interpreters from across the Medmenham spectrum including the team of aircraft specialists led by the redoubtable Constance Babington Smith In November that year whilst analysing photographs of Peenemunde in northern Germany they spotted a small stunted aircraft on a ramp This intelligence breakthrough linked the Nazi research station with a growing network of sites in northern France where ramps were being constructed aligned not only with London but targets throughout southern Britain Through the combined skill and dedication of the Crossbow team and the heroism of the Allied pilots throughout late 1943 and 1944 V weapon launch sites were located and through countermeasures destroyed saving hundreds of thousands of lives and changing the course of the war Operation Crossbow is a wonderful story of human endeavour and derring do told for the first time *Bibliography of Scientific and Industrial Reports* ,1947
