The Institutional Structure of

Macroprudential Policy in the UK Kosmas Kaprinis, 2023-06-28 Macroprudential policy MPP has been one of the major initiatives in the post 2008 crisis restructuring of financial regulation Under the macroprudential mandate the regulator monitors and judiciously controls systemic risk in the financial system in an attempt to minimise the probability and severity of a future financial crisis The book reveals why MPP authorities are rightfully at the centre of a highly sensitive policy debate as MPP necessitates the allocation of significant regulatory power to technocrats while the highly technical nature of MPP makes policy evaluation challenging Specific issues examined include the importance of financial stability as a public policy goal the political economy issues stemming from the delegation of MPP to an independent authority and the definition of accountability in the context of MPP Focusing on a case study on the Financial Policy Committee of the Bank of England the macroprudential authority in the UK the book develops the normative grounds to justify the need for accountability in the conduct of MPP while also formulating the necessary institutional framework to ensure the accountability of MPP authorities

Developing Practice Capability Narelle Patton, Joy Higgs, Megan Smith, 2018-04-16 This book focuses on professional practice capability development in workplace contexts It is built around the idea of workplace learning spaces being like crucibles in which many human material and ephemeral factors are brought together through interactive exchanges of purpose and energy A Crucible Model for Professional Development is presented and explored as a means for better understanding workplace learning as a place and vehicle for learning for professional practice The power and potential for such learning spaces resembles the power of the apparently simple bowl of a crucible However when combined with the fire of enthusiasm for learning and teaching and the rich learning resources and opportunities these settings can provide the resultant catalytic reactions of professional growth and development can be both rewarding and outstanding This book challenges contemporary models of workplace learning and their ability to develop a broad range of professional practice capabilities The authors examine the nature and context of workplace learning in relation to capability development explore the potential of the Crucible Model to enhance workplace learning and provide narratives of professional practice capability development in action The discussions generate a range of implications and recommendations for workplace learning and capability development relevant to workplace learning educators and supervisors academic educators practitioners students and those with the power to shape the future direction of workplace learning for professional practice We invite you as readers of this book to consider the themes we have presented to reflect on your own experiences whether as a student workplace learning educator supervisor academic educator or a practitioner seeking to enhance your own capability development to re imagine workplace learning pedagogy and in so doing harness the potency of workplace learning experiences to develop professional practitioners capable of flourishing in and constructively contributing to 21st Century professional practice contexts
