Belke, 2025-04-15 Was the Hebrew Prophet Jonah a real or fictional person If real when did he live Who were his contemporaries Where did he grow up How long did he live What was he like Is the biblical book truth or fiction Can we know more about him than the 48 verse account in the biblical Book of Jonah one verse in 2 Kings and three short New Testament references To what extent are contemporary assessments of him as being the runaway prophet accurate And what really happened at Nineveh and in the aftermath RETHINKING JONAH is subdivided into four volumes that build on each other as follows Volume 1 Convergence This first volume launches into the inference based historical reconstruction resulting in convergence on the 9th century BC timeframe Scribes scrolls cliffs caves and skulls Prepare to be amazed Volume 2 The Boy Prophet This second volume reveals that Jonah is hidden in plain sight in 2 Kings and reconstructs the first part of his life from his miraculous birth in the Spring of 850 BC to his first resurrection in 849 BC to him drowning to death at sea in 826 BC Volume 3 Two Scrolls Not One This third volume picks up with Jonah s second resurrection in 826 BC reveals that Jonah was originally published as two scrolls not one explains why Nineveh repented in 824 BC and reconstructs Jonah s third resurrection in 799 BC Volume 4 Mysteries Unveiled This fourth volume synthesizes the entire historical reconstruction including an in depth look at the sign of Jonah and the Jonah Israel super sign typology that Jonah s life is a typological map of the history of Israel past present and future **Encyclopedia of Marine Science** C. Reid Nichols, Robert

G. Williams, 2009 Presents an illustrated A Z encyclopedia with more than 600 entries providing information on topics related to marine science Scuba Compendium Simon Pridmore, 2021-08-23 Only available in e book form this is the presentation in one volume of four books in Simon Pridmore's Scuba series Scuba Fundamental Scuba Confidential Scuba Exceptional and Scuba Professional In musical terms Scuba Compendium is a re-mastering and repackaging of the original albums rather than a greatest hits or a Best of compilation The books were written and published over a period of eight years and each book was designed for divers at a particular point in their diving life Listed in the order they were written the audience for Scuba Confidential was the general population of divers Scuba Professional was for those thinking of making a career out of the sport Scuba Fundamental was for non divers and beginners and Scuba Exceptional was for more experienced divers The idea was not to create a series It just turned out that way A number of topics merited inclusion for multiple groups of readers rebreathers and surface safety for example which meant that there was some unavoidable overlap between the individual books In Scuba Compendium the text and chapters have been cleaned up and streamlined to remove any unnecessary repetition and improve continuity Apart from this nothing is missing from the four original books and the only new material is an introductory chapter on the philosophy behind the Scuba series So if you already own all the books in the Scuba series from a content point of view you have no need to buy this one However from a reference point of view some readers may find it an advantage to have these four books in one volume where every word or phrase in the series is easily searchable on an e reader They are arranged here in the order in which they make sense as a series following the path from beginner to diver to experienced diver to expert Scuba Compendium covers the full gamut of the sport diving experience and is a resource that will accompany a scuba diver throughout their career in the sport wherever it takes them to be dipped back into from time to time whenever necessary If you only own one or two books in the series then you may find Scuba Compendium well worthwhile for another reason too For instance if you are not a beginner you may think you don't need to read Scuba Fundamental but many experienced divers have found it useful and entertaining Also Scuba Professional introduces a number of topics such as real risk awareness and constructive paranoia which are just as relevant for amateur divers as they are for professionals Although the title makes it sound as if Scuba Professional is only for instructors this is certainly not the case And of course if you have not yet bought any of these four Scuba series books then this is a great option to buy all of them together with just one click Scuba Fundamental is a great book Simon Pridmore is to be congratulated for this insightful interesting and honest introduction to scuba diving He tells it as it is John Lippmann Divers Alert Network If PADI's Open Water manual is the Bible of scuba diving consider this the New Testament David Espinosa Editor in Chief Sport Diver magazines I so wish Scuba Exceptional had existed when I was in the early days of my diving life nearly 30 years ago Phil Short explorer and pioneer There is quite simply nothing like Scuba Professional It is the ultimate backstage pass into the business of scuba Jill Heinerth explorer and filmmaker Enriched Air Diver Manual Professional Association of Diving
