**Post War Japan** Myung Ja Kim, 2017-05-30 The indistinct status of the Zainichi has meant that since the late 1940s two ethnic Korean associations the Chongryun pro North and the Mindan pro South have been vying for political loyalty from the Zainichi with both groups initially opposing their assimilation in Japan Unlike the Korean diasporas living in Russia China or the US the Zainichi have become sharply divided along political lines as a result Myung Ja Kim examines Japan s changing national policies towards the Zainichi in order to understand why this group has not been fully integrated into Japan Through the prism of this ethnically Korean community the book reveals the dynamics of alliances and alignments in East Asia including the rise of China as an economic superpower the security threat posed by North Korea and the diminishing alliance between Japan and the US Taking a post war historical perspective the research reveals why the Zainichi are vital to Japan s state policy revisionist aims to increase its power internationally and how they were used to increase the country s geopolitical leverage With a focus on International Relations this book provides an important analysis of the mechanisms that lie behind nation building policy showing the conditions controlling a host state s treatment of diasporic groups **Banking**

**and Economic Rent in Asia** Yasushi Suzuki, Mohammad Dulal Miah, Manjula K. Wanniarachchige, S.M. Sohrab Uddin, 2017-03-31 A stable and sound financial system plays a critical role in mediating funds from surplus units to investors making it a prerequisite for economic development Financial intermediaries have been vulnerable to adverse changes in the local and global economy and experienced frequent bubble and bust episodes historically Analyses of financial crises reveal that the incentive created by neo liberal financial principles is inconsistent with stable financial systems and viable solutions require structuring institutions in a way that incentives are well aligned with the fundamental principles of financial systems By drawing on the theoretical framework of the financial restraint model this book analyses financial sectors rents or bank rents and their effects on banks performance and stability and presents evidence on the relationship between rent and incentive through case studies of both developed and developing countries Reenvisioning Peacebuilding and Conflict

Resolution in Islam Qamar-ul Huda, 2024-03-18 Reenvisioning Peacebuilding and Conflict Resolution in Islam examines the variety of strategic peacebuilding and conflict resolution activities conducted by Muslim practitioners and nongovernmental organizations in Muslim majority communities Qamar ul Huda explores ways that Muslim scholars civil society members and communities interpret violence and nonviolence peacebuilding and conflict resolution in an interconnected globalized age focusing on methods practices and strategies He shows how a faith based commitment can empower effective social political

and intellectual action that results in meaningful change The book sheds light on a variety of vital topics including how the state utilizes hard and soft power in global religious diplomacy ways in which civil society organizations and NGOs maximize networks to engage in peacebuilding and conflict resolution the role of civil society in soft power politics and how some peacebuilding organizations are out of step with local Muslim cultures religious customs and why that matters Qamar ul Huda charts a vision of contemporary ethics of peacebuilding pluralism reconciliation and dialogue *Dilemmas and Challenges in Islamic Finance* Yasushi Suzuki, Mohammad Dulal Miah, 2018-03-09 The phenomenal growth of Islamic finance in the last few decades has been accompanied by a host of interesting questions and challenges One of the critical challenges is how Islamic financial institutions can be motivated to participate in the equity like profit and loss sharing PLS contracts It is observed that Islamic banks are reluctant to participate in the pure PLS scheme which is manifested by the rising concentration of investment on murabaha or mark up financing This phenomenon has been the hotbed of academic criticism on the contemporary practice of Islamic banking This book explains the murabaha syndrome in light of the incentive provided by the current institutional framework and what are the changes required in the governance structure to mend this anomaly

reassessment of theories of property rights in response to conflicts and competition between different groups and the state It does so by taking an institutional political perspective to analyse the structures of property rights with a focus on a series of case studies from Bangladesh In doing so the book highlights the importance of property rights for economic growth why developing countries often fail to design property rights conducive for economic development and the strategies required for designing an efficient structure of rights Since property rights falls within the domain of Law and Economics the book ventures to explain legal issues from an economic perspective resulting in empirical analysis that comprises both legal and non legal cases
