Brokers of Deceit Rashid Khalidi, 2013-03-12 Winner of the 2014 Lionel Trilling Book Award

An examination of the failure of the United States as a broker in the Palestinian-Israeli peace process through three key historical moments. For more than seven decades the conflict between Israel and the Palestinian people has raged on with no end in sight and for much of that time the United States has been involved as a mediator in the conflict. In this book, acclaimed historian Rashid Khalidi zeroes in on the United States's role as the purported impartial broker in this failed peace process. Khalidi closely analyzes three historical moments that illuminate how the United States involvement has in fact thwarted progress toward peace between Israel and Palestine. The first moment he investigates is the Reagan Plan of 1982 when Israeli prime minister Menachem Begin refused to accept the Reagan administration's proposal to reframe the Camp David Accords more impartially. The second moment covers the period after the Madrid Peace Conference from 1991 to 1993 during which negotiations between Israel and Palestine were brokered by the United States until the signing of the secretly negotiated Oslo accords. Finally, Khalidi takes on President Barack Obama's retreat from plans to insist on halting the settlements in the West Bank. Through in-depth research and keen analysis of these three moments as well as his own firsthand experience as an advisor to the Palestinian delegation at the 1991 pre-Oslo negotiations in Washington DC, Khalidi reveals how the United States and Israel have actively colluded to prevent a Palestinian state and resolve the situation in Israel's favor. *Brokers of Deceit* bares the truth about why peace in the Middle East has been impossible to achieve for decades. US policymakers have masqueraded as unbiased agents working to bring the two sides together when in fact they have been the agents of continuing injustice, effectively preventing the difficult but essential steps needed to achieve peace in the region.

Politics and Government in Israel Gregory S. Mahler, 2011 This even-handed and thorough text explores Israeli government and politics. This clear and concise text provides an invaluable starting point for all readers needing a cogent introduction to Israel today.

Edward Said Nubar Hovsepian, 2025-06-03 An exploration of the political thought of one of the twentieth century's most influential thinkers and the foremost advocate for the Palestinian cause in the West. Edward Said was one of the most influential intellectuals of the twentieth century. A literary scholar with an aesthete's temperament, he did not experience his political awakening until the

1967 Arab Israeli war which transformed his thinking and led him to forge ties with political groups and like minded scholars Said s subsequent writings which cast light on the interplay between cultural representation and the exercise of Western political power caused a seismic shift in scholarly circles and beyond In this intimate intellectual biography by a close friend and confidant Nubar Hovsepian offers fascinating insight into the evolution of Said s political thought Through analysis of Said s seminal works and the debates surrounding them Edward Said The Politics of an Oppositional Intellectual traces the influence of Foucault on Said and how Said eventually diverged from this influence to arrive at a more pronounced understanding of agency resistance and liberation He consequently affiliated more closely with Raymond Williams Antonio Gramsci and more contemporaneously with his friends the late Eqbal Ahmad and Ibrahim Abu Lughod Said held that it is the intellectual s responsibility to expose lies and deceptions of the holders of power A passionate advocate for the Palestinian cause his solidarity did not prevent him from launching a sustained critique of the Palestinian leadership Hovsepian charts both Said s engagement with the Palestinian national movement and his exchanges with a host of intellectuals over Palestine arguing that Said s interventions have succeeded in changing the parameters of the discourse in the humanities and among younger Jews searching for political affiliation Drawing on his diaries in which he recorded his meetings with Said as well as access to some of Said s private letters Hovsepian illuminates in rich detail the trajectory of Said s political thinking and the depth and breadth of his engagement with peers and critics over issues that continue to resonate to this day

Memory and Genocide Fazil Moradi,Ralph Buchenhorst,Maria Six-Hohenbalken,2017-04-07 This book focuses on the ethical aesthetic and scholarly dimensions of how genocide related works of art documentary films poetry and performance museums and monuments music dance image law memory narratives spiritual bonds and ruins are translated and take place as translations of acts of genocide It shows how genocide related modes of representation are acts of translation which displace and produce memory and acts of remembrance of genocidal violence as inheritance of the past in a future present Thus the possibility of representation is examined in light of what remains in the aftermath where the past and the future are inseparable companions and we find the idea of the untranslatability in acts of genocide By opening up both the past and lived experiences of genocidal violence as and through multiple acts of translation this volume marks a heterogeneous turn towards the future and one which will be of interest to all scholars and students of memory and genocide studies transitional justice sociology psychology and social anthropology

Security and Suspicion Juliana Ochs, 2011-06-06 In Israel gates fences and walls encircle public spaces while guards scrutinize inspect and interrogate With a population constantly aware of the possibility of suicide bombings Israel is defined by its culture of security *Security and Suspicion* is a closely drawn ethnographic study of the way Israeli Jews experience security in their everyday lives Observing security concerns through an anthropological lens Juliana Ochs investigates the relationship between perceptions of danger and the political strategies of the state Ochs argues that everyday security practices create exceptional states of civilian alertness that perpetuate rather than mitigate national fear and ongoing violence In Israeli cities customers entering gated urban caf s open their handbags for armed security guards and parents circumnavigate feared neighborhoods to deliver their children safely to school Suspicious objects appear to be everywhere as Israelis internalize the state s vigilance for signs of potential suicide bombers Fear and suspicion not only permeate political rhetoric writes Ochs but also condition how people see the way they move and the way they relate to Palestinians Ochs reveals that in Israel everyday practices of security in the home on commutes to work or in caf s and restaurants are as much a part of conflict as soldiers and military checkpoints Based on intensive fieldwork in Israel during the second intifada *Security and Suspicion* charts a new approach to issues of security while contributing to our appreciation of the subtle dynamics of the Israeli Palestinian conflict This book offers a way to understand why security propagates the very fears and suspicions it is supposed to reduce

Lived Resistance Against the War on Palestinian Children Heidi Morrison, 2024-08 Despite the increasing volume of scholarship that shows children as political actors prior to this book a cohesive framework was lacking that would more fully examine and express children s relationship with political power Rather than simply hitching children s resistance to

standard theories of resistance Heidi Morrison seeks to meet children on their own terms Through the case study of Palestinian children contributors theorize children s resistance as an embodied experience called lived resistance A critical aspect of the study of lived resistance is not just documenting what children do but specifically how scholars approach the topic of children s resistance With *Lived Resistance against the War on Palestinian Children* the authors account for the vessel i e the body in flesh and mind through which such resistance generates and operates The diverse group of chapter authors examine Palestinian children s art and media imprisonment parenting experiences bereavement neoliberalism refugee camps and protest movements as aspects of their collective and individual political power Through these outlets the book shows consistencies and contends that these children s relationship to political power operates from an inclusive model of citizenship and is social justice oriented symbolically oriented and contingently based

Inside War Fabio Armao, 2016-02-22 The post Cold War era was characterised by both the recurrence of state wars and the spread of forms of organised violence other than wars Asymmetric warfare between alliances led by the USA and groups of insurgents such as those witnessed in Afghanistan and Iraq coexist alongside domestic conflicts such as that of former Yugoslavia and more recently Libya and Syria and still other conflicts involving gangs mafias or narco traffickers The massive military industrial complexes conceived in the context of the threat of nuclear Armageddon are still there of course but they now coexist with irregular armies of insurgents carrying out massacres through the use of light weapons and improvised explosives devices This book oppose the idea that this situation prefigures the return to an anarchical pre political condition by assuming that new wars are rather the product of the blurring of the public private divide induced by the end of the Cold War together with globalisation As a consequence also the internal and external factors are blurred and ever more permeable and elusive is becoming even the border between war and crime *Inside War* goes beyond a state centered analysis and adopts an interdisciplinary and multilayered approach and is intended to foster the dialogue among researchers from different fields It places war at the core of analysis assuming that the reality of war is what we make of it and that the only insurmountable limit to our comprehension of war is our way of knowing and representing it Fabio Armao teaches courses in Politics and Globalisation Processes and Criminal Systems He has been Visiting Professor at Cornell University and co

convenor of the Standing Group on Organized Crime European Consortium for Political Research Founding member of T wai Torino World Affair Institute he is also member of the Editorial Board of Global Crime His research interests and publications focus on international wars and geopolitics on violent non state actors and transnational organised crime and on urban security
