What America Lost: Decades That Made a Difference Sallie Ferrell Bolich, 2009-08-04 As the fifties ended we were about to embark on a journey that would take our American society in a completely new direction By reviewing history we can identify how the tumultuous sixties chose our path while each decade beginning in 1950 and continuing through 2000 determined our course at that time On this journey many values and lifestyles experienced by the Baby Boomers were left behind not passed on to their children Gen X and Gen Y The resulting new outlook profoundly influenced attitudes held by these emerging generations The fascinating field of handwriting analysis serves as our GPS which enables us to identify these attitudes trace where we've been and understand where society is today Handwriting is an expression of self and attitudes resulting from personal experiences social interactions and events that made a significant impact Reliving the journey with insight is made possible by studying handwriting samples obtained from high school yearbooks covering those five decades Numerous historical and societal changes profoundly influenced attitudes of today These attitudes mirror our culture Handwriting analysis will not reveal precise societal changes however it will reveal how these changes impact attitudes Handwriting Today, a Guide for the Classroom Teacher New England School Development Council.
