Tolstoy,2017-05-08 The Death of Ivan Ilyich first published in 1886 is a novella by Leo Tolstoy considered one of the masterpieces of his late fiction written shortly after his religious conversion of the late 1870s Usually classed among the best examples of the novella The Death of Ivan Ilyich tells the story of a high court judge and his sufferings and death from a terminal illness in 19th century Russia Ivan Ilyich lives a carefree life that is most simple and most ordinary and therefore most terrible Like everyone he knows he spends his life climbing the social ladder Enduring marriage to a woman whom he often finds too demanding he works his way up to be a magistrate thanks to the influence he has over a friend who has just been promoted focusing more on his work as his family life becomes less tolerable While hanging curtains for his new home one day he falls awkwardly and hurts his side Though he does not think much of it at first he begins to suffer from a pain in his side As his discomfort grows his behavior towards his family becomes more irritable His wife finally insists that he visit a physician The physician cannot pinpoint the source of his malady but soon it becomes clear that his condition is terminal Confronted with his diagnosis Ivan attempts every remedy he can to obtain a cure for his worsening situation until the pain grows so intense he is forced to cease working and spend the remainder of his days in bed Here he is brought face to face with his mortality and realizes that although he knows of it he does not truly grasp it During the long and painful process of death Ivan dwells on the idea that he does not deserve his suffering because he has lived rightly If he had not lived a good life there could be a reason for his pain but he has so pain and death must be arbitrary and senseless      **The Death of Ivan**

**Ilych by Leo Tolstoy Illustrated Edition** Leo Tolstoy,2022-02-23 Hailed as one of the world s supreme masterpieces on the subject of death and dying The Death of Ivan Ilyich is the story of a worldly careerist a high court judge who has never given the inevitability of his death so much as a passing thought But one day death announces itself to him and to his shocked surprise he is brought face to face with his own mortality How Tolstoy asks does an unreflective man confront his one and only moment of truth This short novel was the artistic culmination of a profound spiritual crisis in Tolstoy s life a nine year period following the publication of Anna Karenina during which he wrote not a word of fiction A thoroughly absorbing and at times terrifying glimpse into the abyss of death it is also a strong testament to the possibility of finding spiritual salvation

The Death of Ivan Ilych by Leo Tolstoy Illustrated Leo Tolstoy,2021-09-27 Ivan Ilyich lives a carefree life that is most simple and most ordinary and therefore most terrible Like everyone he knows he spends his life climbing the social ladder Enduring marriage to a woman whom he often finds too demanding he works his way up to be a magistrate thanks to the influence he has over a friend who has just been promoted focusing more on his work as his family life becomes less tolerable While hanging curtains for his new home one day he falls awkwardly and hurts his side Though he does not think much of it at first he begins to suffer from a pain in his side As his discomfort grows his behavior towards his family becomes more

irritable His wife finally insists that he visit a physician The physician cannot pinpoint the source of his malady but soon it becomes clear that his condition is terminal Confronted with his diagnosis Ivan attempts every remedy he can to obtain a cure for his worsening situation until the pain grows so intense that he is forced to cease working and spend the remainder of his days in bed Here he is brought face to face with his mortality and realizes that although he knows of it he does not truly grasp it During the long and painful process of dying Ivan dwells on the idea that he does not deserve his suffering because he has lived rightly If he had not lived a good life there could be a reason for his pain but he has so pain and death must be arbitrary and senseless As he begins to hate his family for avoiding the subject of his death for pretending he is only sick and not dying he finds his only comfort in his peasant boy servant Gerasim the only person in Ivan's life who does not fear death and also the only one who apart from his own son shows compassion for him Ivan begins to question whether he has in fact lived a good life In the final days of his life Ivan makes a clear split between an artificial life such as his own which masks the true meaning of life and makes one fear death and an authentic life the life of Gerasim Authentic life is marked by compassion and sympathy the artificial life by self interest Then some force strikes Ivan in the chest and side and he is brought into the presence of a bright light His hand falls onto his nearby son's head and Ivan pities his son He no longer hates his daughter or wife but rather feels pity for them and hopes his death will release them In so doing his terror of death leaves him and as Tolstoy suggests death itself disappears

sack of darkness and total solitude Faced with an interminable illness Ivan Ilych reviews his past life finding that he had lived the moral life of a loving father a good provider and an upright citizen After much physical and mental suffering towards the end of his agony he hits upon a shocking question What if my whole life has been wrong The answer becomes a simple epiphany which reveals to him the truth Once the light of understanding sets on him he experiences an immediate release from his endless suffering What really matters in this life is the truth which he could only find in the throes of death Our version is presented in contemporary American English Many translations and editions in the public domain are in British English 19th century English The only liberty we have taken is the portraying of Iv n Ilych s thoughts towards the end in indirect free speech
