Manual de identificación de especies maderables objeto de comercio en la Amazonia colombiana René López Camacho, Dairon Cárdenas López, 2002-12-10 El Manual de identificación de especies maderables objeto de comercio en la Amazonía colombiana es una herramienta técnica que permite a las autoridades ambientales, policivas y judiciales disponer de una serie de elementos que faciliten la identificación de especies maderables objeto de comercio que se encuentran incluidas en los Apéndices de la CITES y/o bajo algún grado de amenaza en el país. En términos generales, cuando las autoridades ambientales realizan controles a la movilización de madera, recurren al nombre comercial o común con que se denota en la región.

Posteriormente se pueden conjugar elementos como la procedencia, la información del permiso de movilización y la utilización de características generales de la madera para tener una aproximación al nombre científico de la especie. En todos los casos se evalúa la legalidad de movilización y comercio; este o no está listada la especie en los Apéndices de la CITES. Aunque el manual constituye una herramienta fundamental para las autoridades ambientales, también es útil en la identificación de maderas objeto de comercio en caso de dudas persistentes en relación con la especie y la necesidad de un informe pericial. Ser necesario recurrir a especialistas en identificación anatómica de maderas o a la corroboración mediante muestras botánicas o de propiedades físicométricas de la madera. El manual busca facilitar la identificación de las especies analizadas para su conservación y manejo y protección en el marco de las políticas trazadas por la CITES, así mismo permitir a las autoridades aduaneras ambientales y policivas fortalecer los controles al comercio de las especies maderables en la región identificando con facilidad las más comercializadas en la zona.

La pasión criolla por el fashion Antonio de Abreu Xavier,2016-06-28 La moda siempre ha apasionado a los venezolanos Los primeros en darse cuenta de ello fueron los curas en la época hispánica Los viajeros que recorrieron el país en el siglo XIX también prestaron atención a esta pasión arrebatadora quedando pasmados ante sus incontables variables El historiador Antonio de Abreu Xavier nos revela que esta pasión no solo tiene que ver con trajes zapatos y adornos sino que también atañe a los ademanes más inveteros miles los gestos más afectados el empleo de palabras rimbombantes y hasta expresiones en otras lenguas que dan cuenta de la supuesta cultura de quien las emplea En esta revelación radica la importancia de este libro que no solo penetra en la fascinación criolla por el fashion vale decir en ese gusto irrefrenable por ponerse un vestido a la última moda o calzarse el zapato más lujoso en aras de verse y sentirse bien ante el espejo y terceros sino también en implicaciones con la dieta la salud y el presupuesto familiar Es una pasión que llega hasta el presente que toca a todas las clases sociales sin distinción de género no en vano los venezolanos son considerados por los analistas del comportamiento de consumo uno de los grupos sociales más vanidosos del planeta
