- ▶ Tongo Lizards have many defensive strategies including: Biting, scaring or simply playing dead. Tongo Lizards are rarely bitten, tending them to have a lot of blood. And the more blood, the more energetic, the more energetic, the more speed to escape. Tongo Lizards are insectivores, feeding on ants, termites, butterflies, gnats, bees and other insects. Some lizard species are omnivores, feeding on both plants and small animals. Some exclusively feed on plants since they are herbivores. Tongo Lizards are mainly fed on by snakes. Anacondas, Pythons, Rattlesnakes you name it! But they are usually ate by water snakes when they are bathing/drinking. As babies the mother usually stays with their child for 10 - 12 months. Babies are then left by the lake to survive. Babies are more likely to be poor slower and have less skills and knowledge than a adult Lizard.

Outdoor Learning Research Sue Waite, 2020-06-09 The term outdoor learning covers many forms of practice outside the classroom including Forest School and outdoor play Outdoor learning has been rapidly growing as a topic of interest for educators and parents over the last ten years and research published in this field is also increasing Despite the fact that we are inextricably part of the natural world there is concern that contemporary children have become disconnected from nature and that their opportunities to access natural environments are declining Given compelling evidence that time spent in natural places has multiple benefits for human health and wellbeing and pro environmental behaviour Bourn et al 2016 there is an impetus to find ways to increase children s exposure to and attachment to nature through their education The chapters in this book were originally peer reviewed articles published in Education 3 13 International Journal of Primary Elementary and Early Years Education They are amongst the most popular in the journal reflecting the demand for more evidence of outcomes and high quality information about how best to implement outdoor learning for children in this age group The authors report qualitative and quantitative studies and consider implications of the findings for children and their development and for the integration or not of natural environment contexts within school practices Gathering this body of evidence together in a single volume enables important messages about outdoor learning s various purposes processes and outcomes to be more readily accessed by practitioners policy makers and researchers

The Hidden Harvest Ian Scoones, Mary Melnyk, Jules N. Pretty, 1992 971 references on wild foods in agricultural systems are selected with the intention to provide an indication of the range of research carried out on this subject highlighting key themes of policy interest The bibliography is organised into a number of different thematic sessions Each session starts with an introduction with references to major issues in the literature and areas where questions remain unanswered Each reference is provided with an abstract Three indices are given a regional index an ethnic groups index and a thematic index

Night Blind Jan Worth, 2006 Melanie a beautiful young Peace Corps volunteer is murdered one October night in the Kingdom of Tonga For young American Charlotte Thornton the killing sets off an unnerving cascade of questions Charlotte can t help but wonder if she ll be able to survive and work in the tense postmurder atmosphere She plunges into her job as a public relations officer for a Tongan noble But during her off hours she drinks too much at the Coconut Club and awkwardly tries to adapt her sexually bold inclinations to Polynesian customs After getting thrown out of a party for cavorting naked with Melanie s ex lover she retreats embarrassed depressed and haunted by Melanie s death to her Tongan family She then falls in love with Gabriel Bonner a married Peace Corps psychologist When Gabriel abruptly leaves and an earthquake rocks the area Charlotte s life seems as if it is about to collapse How will she navigate her way through this tropical ordeal night blind and 9 000 miles away from home Night Blind gets under your skin and won t go away like an old lover returned when you least expect it The events of this book are so painful and so vivid so picturesque and so lasting and its purpose so anti nostalgic
