Too Many Murders:

Too Many Murders Colleen McCullough, 2014-07-29 The second book in the Carmine Delmonico mystery series Too Many Murders sees the resolute detective caught up in a seemingly insoluble high stakes case It s a beautiful spring day in the little city of Holloman Connecticut the year is 1967 and the world teeters on the brink of nuclear holocaust as the Cold War goes relentlessly on But Holloman has other things to worry about on April 3rd 1967 twelve murders have taken place on one day Suddenly Captain Carmine Delmonico chief of detectives has other more important matters to occupy his mind than finding a satisfactory name for his infant son With his cohorts Abe Goldberg and Corey Marshall giving him unfailing support Carmine embarks on what looks like an insoluble case All the murders are different and no victim is connected to any of the others One group centers around the great university Chubb while another is inextricably tied to the armaments giant Cornucopia And as if twelve murders were not enough Carmine soon finds himself pitted against the mysterious Ulysses a spy giving Cornucopia s armaments secrets to the Russians Are the murders and espionage different cases or are they somehow linked Too Many Murders sees Carmine contending with a very different kind of problem than the one he faced in On Off It takes the addition of a new member to his team the meticulous Delia Carstairs to give Carmine the right bunch of people to solve the new case a group that also includes the cantankerous Judge Douglas Thwaites the smooth operator Commissioner John Silvestri and his wife Desdemona

Africans Free? Lawrence Hamilton, 2014-04-10 Despite South Africa's successful transition to democracy and lauded constitution political freedom for the majority of South Africans remains elusive The poor and unemployed majority are poorly represented and lack power and thus freedom Under these conditions the freedom of the privileged minority is also seriously impaired due to the costs of maintaining their relative security and well being Lawrence Hamilton is an internationally known political theorist who has spent ten years teaching in South African universities In this unique book he brings ideas political and philosophical to the fore to understand a contemporary political conundrum He outlines the persistent unresolved problems characterizing contemporary South Africa poverty and quality of life statistics that are appalling for a middle income country levels of inequality that make South Africa one of the most unequal places in the world skewed economic and political representation that reproduces elites rather than generating opportunities for all and an electoral system that implements the idea of proportional representation so literally that it undermines meaningful representation Are South Africans Free aims not only to explain the current state of South Africa but to provide positive new directions and suggestions for institutional change Hamilton argues that freedom as power in South Africa does not depend on good will charity or duty and it goes beyond the complete realization of the political and civil liberties currently safeguarded in its constitution Such change will depend on courageous leadership active citizenship new forms of representation and a macroeconomic policy that offers radical redistribution of actual and potential wealth *The Friendship Indispensable* Charles Edward Jefferson, 1923
