Rhetoric in Tooth and Claw Debra Hawhee, 2017 Bringing together classical rhetoric and the study of animals is not a trick for the faint of heart Hawhee's ambition and skill here are astonishing combining illumination of major texts of the rhetorical tradition with attention to the way animals show up in these great books of Aristotle Demetrius Longinus Erasmus and others to show that nonhuman animals have made themselves indispensable to theories of language and communication to inquiry and to arts of memory and philosophies of mind Speech or reason logos has traditionally been the focus of rhetoric the art of effective language use but sensation feeling and emotion are just as important and this is where animals enter In fact they enter in very frequently when discussion centers on the extra rational or nonrational aspects of communication Nonhuman animals serve in these texts at times as sensible objects but in large part they enter rhetoric's theories and treatises as moving sensing creatures as what Hawhee calls partners in feeling to their human counterparts She meanwhile explores the use rhetoricians have made of references to animals in beast fables ecphrases vivid descriptions discussions of memory and mock encomia Animals may emerge through Hawhee's account as partners in feeling but they also function as emblems and her attention to Renaissance emblems and its partner art stylistic depiction plays out some often intricate rhetorical resonances This history of nonhuman animals in rhetoric retells that story thus as one animated by energy force liveliness wondrous diversity and astounding and often bloody violence all at the behest of humans animal partners in feeling

Moore, 2006-11 Abandoned in the depth of winter the once pampered pets of men the cats and dogs are left to their own fate To fend for themselves Can they survive the cruel weather Most importantly can they survive each other *Tooth and Claw* Lynn Katzenmeyer, 2019-09-23 Rejected and destroyed the reviled dud of the Kootenai pack is finally exiled for failing to shift into a wolf before her high school graduation Ten years later Lee Fields finally has her life on track She's part owner of the Tooth and Claw pub small town legend and Easterville's own Bionic Barmaid When her life before Easterville comes back for

her she'll have to grapple with her moon-blessed mate Kendrick Biel and the complicated past they share. Back on pack-lands Lee will have to choose between the life she's been living in Easterville and the mate who forced her there in the first place. After ten years apart, has Kendrick changed enough for Lee to trust he could ever truly love her? You knew what I was to you for years before the accident. I whispered, afraid if I spoke with my full voice I'd lose control, you should have protected me. But you didn't. You let me. I couldn't finish the sentence. He knew what he'd allowed to happen. He'd been there. It was my first shift and the first time I'd felt the pull of my mate. The same pull I was feeling for the man sitting across the narrow bar you need to leave. I said, finally getting the strength to repeat the words he'd said to me all those years ago: I don't want you here.

The Black Flies of Subtropical and Tropical Asia Hiroyuki Takaoka, 2024-07-30. This book uncovers the entire picture of the black fly (Diptera Simuliidae) fauna in subtropical and tropical Asia. The Oriental Region has disclosed a remarkable diversity in terms of phylogenetic lineages and morphological features, particularly adult genitalia and pupal gills. The black fly fauna in the Oriental Region is found to be completely different from those in other regions. The book has two aims: academic and practical. Introduction provides the general information on the biology and effects on human and animal health and welfare of black flies and introduces the unique characteristics of the black fly fauna in this region. Chapter 2 proposes a classification scheme for all 675 named and 44 unnamed species of Oriental black flies, which are placed in 11 subgenera and 36 species groups of the genus *Simulium*. In Chapter 3, synoptic accounts are given for their distribution, bionomics, and taxonomic comments of all the species. In Chapter 4, the faunas of black flies in 15 countries or areas (India, Nepal, Bhutan, Sri Lanka, Myanmar, Thailand, Peninsular Malaysia, Borneo, Sunda Archipelago, Sumatra, Java, Bali, Lombok, Sumbawa, Flores, and Timor, East Indonesia, Sulawesi, Maluku Islands, and Irian Jaya, Vietnam, Philippines, Taiwan, South China, Nansei Islands, Japan) are overviewed, and species lists and identification keys for females, males, pupae, and larvae are constructed. Ninety-eight figures of 1,691 line drawings highlight various unique morphological characteristics of most subgenera and species groups. Chapters 2 and 3 are academically essential for medical or biological scientists and students to study black flies. Keys to identify species in 15 countries or areas in Chapter 4 are of practical use for health workers for the control of insects of medical and veterinary importance, as well as for ecologists for the study of aquatic invertebrates. Many novel morphological characteristics illustrated in the figures appeal to readers and show the importance of biodiversity of natural terrestrial ecosystems. Contents of this book resulted from the author's taxonomic review of all 719 Oriental species of black flies with reference to 486 publications.

The Wildes Louis Bayard, 2024-09-17. In this singularly powerful novel, bestselling author Louis Bayard brings

Oscar Wilde's wife Constance and two sons out from the shadows of history and creates a vivid and poignant story of secrets, loss, and love. Wonderfully researched, beautifully crafted, movingly told, *The Wildes* is a treasure to read. Andrew Sean Greer, Pulitzer Prize-winning author of *Less* and *Less Is Lost*, *The Wildes* is a marvel of tenderness, irony, heartbreak, and reclamation that demonstrates why Bayard is among the most essential and most entertaining interrogators of the past. Anthony Marra, author of *Mercury Pictures Presents* and *A Constellation of Vital Phenomena*. In September of 1892, Oscar Wilde and his family have retreated to the idyllic Norfolk countryside for a holiday. His wife Constance has every reason to be happy: two beautiful sons, her own work as an advocate for feminist causes, and a delightfully charming and affectionate husband and father to her children, who also happens to be the most sought-after author in England. But with the arrival of an unexpected houseguest, the aristocratic young poet Lord Alfred Douglas, Constance gradually and then all at once comes to see that her husband's heart is elsewhere and that the growing intensity between the two men threatens the whole foundation of their lives. *The Wildes: A Novel in Five Acts* takes readers on the emotional journey of this family, moving from the Italian countryside where Constance Wilde flees from the aftermath of Oscar's imprisonment for homosexuality to the trenches of World War I and an underground bar in London's Soho where Oscar's sons Cyril and Vyvyan must both grapple with their father's legacy. And in a brilliant feat of the imagination, act 5 reunites the entire cast in a surprising, poignant, and tremendously satisfying tableau. With Louis Bayard's trademark sparkling dialogue and deep insight into the lives and longings of all his characters, *The Wildes* could almost have been created by Oscar Wilde himself. Lightly told but with hidden depths, it is an entertaining and dramatic story about the human condition.
