| P.5.B.6  | Design a system to increase the effects of friction on the motion of an object (e.g., non-slip surfaces or vehicle braking systems or flaps on aircraft wing). Use an engineering design process to define the problem, design, construct, evaluate, and improve the system. <sup>7</sup> |   |
| E.5.BA.1 | Develop and use scaled models of Earth's solar system to demonstrate the size, composition (i.e., rock or gas), location, and order of the planets as they orbit the Sun.                                                                                                                 | 4 |
| E.5.BA.2 | Use evidence to argue why the sun appears brighter than other stars.                                                                                                                                                                                                                      | 3 |
| E.5.BA.3 | Describe how constellations appear to move from Earth's perspective throughout the seasons (e.g., Ursa Major, Ursa Minor, and Orion).                                                                                                                                                     | 4 |
| E.5.BA.4 | Construct scientific arguments to support claims about the importance of astronomy in navigation and exploration, including the use of telescopes, compasses, and star charts.                                                                                                            | 3 |
| E.5.BB.1 | Analyze and interpret data from observations and research (e.g., from NASA, NOAA, or the USGS) to explain patterns in the location, movement, and appearance of the Moon throughout a month and over the course of a year.                                                                | 5 |
| E.5.BB.2 | Develop and use a model of the Earth-Sun-Moon system to analyze the cyclic patterns of lunar phases, solar and lunar eclipses, and seasons.                                                                                                                                               | 5 |
| E.5.BB.3 | Develop and use models to explain the factors (e.g., tilt, revolution, and angle of sunlight) that result in Earth's seasonal changes.                                                                                                                                                    | 4 |
