

Components of a Fourth Grade Math Lesson

Time	Activity	Description
8:30 - 8:45	Homework Do Now	A Do Now is a task, math game, fluency worksheet, or review problems that can be completed independently at a Voice Level 0. It is a tool used to preview the upcoming lesson or reinforce what was learned the previous day. Do Nows should cycle content from earlier chapters throughout the school year and can be used to practice answering multiple choice style questions seen on state assessments. Pull problems from "Practice," "Word Problem," and "Review" sections in the textbook, from the test book, or provided supplemental materials.
8:45 - 8:50	Morning Announcements	Pledge of Allegiance in Latin / School Mission / Pillars of Virtue Morning meeting: Review the calendar, date and agenda for the day.
8:50 - 8:55	Number Fluency	Oral number fluency is a way for scholars to practice rote counting, memorization, and relational skills. This is conducted using choral response with 100% participation. Number fluency will progress throughout the school year. Counting in American Sign Language (ASL) will be used as a math finger exercise to prepare for use of manipulatives and eventually writing.
8:55 - 9:10	Vocabulary Review	Introduce upcoming or review previously taught vocabulary through Socratic questioning. Dive deeper and make connections while allowing scholars to practice auditory comprehension, increase vocabulary, and build metacognition.
9:10 - 9:15	Textbook Lesson	Refer to the Teacher's Guide and provided lesson plans. Cover "Think" and introduce "Learn." Conduct informal Checks For Understanding.
9:15 - 9:25	Number Fluency	Written number fluency with oral review of math facts. Dimensions aligned progression.
9:25 - 9:35	Textbook Lesson Cont.	Finish working through the "Learn" section and practice concepts during "Do" section. These problems should be introduced using timed guided practice methods. Taper levels of support throughout the math block. Circulate and provide frequent feedback.
9:35 - 9:45	Writing to Match	Allow scholars the opportunity to solidify concepts through writing about them using complete sentences.
9:45 - 9:55	Textbook Lesson Cont.	Complete a practice problem together from the "Do" section - scholar led using frequent questioning and informal Checks For Understanding.
9:55 - 10:05	Workbook Pages	Workbooks provide additional problems that range from basic to challenging. These problems should be introduced using timed guided practice methods. Taper levels of support throughout completion. Circulate and provide frequent feedback. Try reviewing a question from each section - encourage scholars to complete the challenge problems.
10:05 - 10:10	Check For Understanding	A formal Check For Understanding (CFU) will be completed at the end of every lesson. The CFU will be identified as a question that can demonstrate mastery and application of the concept taught that day. Scholars will answer their CFU independently with manipulatives (as needed). If scholars do not demonstrate mastery, do not move on.
