rights social welfare education and defense policy At the same time Americans are also more aware of how the Cold War shaped their lives from the duck and cover drills in the classrooms to the bomb shelters dug in the backyard when most Baby Boomers were growing up Like millions of Baby Boomers Bill Clinton can truthfully say I am a child of the Cold War With the last gasp of the Soviet Union Baby Boomers and others are learning that the politics of the Cold War are hard to shed As the electoral maps are being redrawn once more in the Clinton years landmarks left behind by the Cold War provide an important reference point In the height of the Cold War voters divided the world into us noncommunists versus them communists and reduced contests for the presidency into battles of which party would be tougher in dealing with the Evil Empire But in a convoluted post Cold War era politics defies such simple characteristics and presidents find it harder to lead Recalling how John F Kennedy could so easily rally public opinion an exasperated Bill Clinton once lamented Gosh I miss the Cold War

**The Field** Douglas Booth,2007-05-07 2006 North American Society for Sports History Book of the Year The literature on sport history is now well established taking in a wide range of themes and covering every activity from aerobics to zorbing However in comparison to most mainstream histories sport history has rarely been called upon to question its foundations and account for the basis of its historical knowledge In this book Booth offers a rigorous assessment of sport history as an academic discipline exploring the ways in which professional historians can gather materials construct and examine evidence and present their arguments about the sporting past Part 1 examines theories of knowledge while Part 2 goes on to scrutinize the uses of historical knowledge in popular and academic studies of sport history With clear structure examples summary tables and a detailed glossary The Field provides students teachers and researchers with an unparalleled resource to tackle issues fundamental to the future of their subject and sets the agenda for the debate to come

*For Workers' Power* Maurice Brinton,2020-08-04 Over the last sixty years many radicals have had their eyes opened by the writing of Maurice Brinton The most prolific writer of the British Solidarity group which existed from 1961 to 1992 his work slaughtered countless sacred cows of standard leftist thinking For Brinton actually existing socialism did not in fact exist He wrote with passion clarity and consistency on behalf worker self activity and self management and to decry those who reinforced passivity apathy cynicism pecking orders and alienation among workers This oppressive behavior was to him as prevalent among state socialists and communist parties as it was among capitalists because it enabled rulers and would be rulers of every political stripe to deceive and manipulate those in whose name they claimed to act Today when a new crop of so called democratic socialists are seeking state power allegedly on behalf of working people Brinton s work is more relevant than ever

Modern Policing David Watts Pope,Norman L. Weiner,2023-03-31 Originally published in 1981 Modern Policing provided an opportunity for members of the Police Staff College Bramshill to air their views about different aspects of modern British

policing Contributions were made by members of the directing staff professional and academic and by students This book was addressed primarily to policemen themselves but also had wider appeal to those interested in policing The editors saw within police constabularies a rapidly developing concern for management information by senior police personnel for material to better prepare officers for their difficult task by training departments for relevant analyses to help improve qualifications by policemen themselves This was one of the first books to include views from inside the police rather than those from the outside the service      **Southern Practitioner** ,1905
