Arab-Jewish Activism in Israel-Palestine Marcelo Svirsky, 2016-04-15 Applying the insights of Deleuze and Guattari's works to Israel Palestine Arab Jewish Activism in Israel Palestine sets out to re conceptualise the relationship between resistance and power in ethnically segregated spaces in general and the Israeli Palestine context in particular Combining many years of ethnographic study and political and social activism with a solid theoretical conceptual framework Marcelo Svirsky convincingly argues that successful efforts to decolonise the region depend on taking the struggle beyond self determination and making it collaborative Decolonisation depends on political and cultural changes that elaborate on the historical partition of social life in the region that have been an issue since the early twentieth century This elaboration means producing a civil struggle aimed at the destabilisation of the Zionist supremacy and resulting in a democratic political community from the Mediterranean Sea to the Jordan River Simply not just another book on Israel and Palestine Arab Jewish Activism in Israel Palestine provides refreshingly new empirical evidence and theoretical analysis on the connection between resistance intercultural alliances civil society and the potential for actualising shared sociabilities in a conflict ridden society An indispensable read to all scholars wishing to gain original insights into the transversal connections which transcend ethnicity

Organizations, Gender, and the Culture of Palestinian Activism in Haifa, Israel Elizabeth Faier, 2005 Extrait de l introduction In this book based on 25 months of fieldwork from 1993 1995 and subsequent visits in the summers of 2000 and 2001 the author examines activism and activists in Palestinian nongovernmental organizations in Israel The author argues that organizations enable certain processes of self identification based on activist's constructions of modernity Throughout the text she does not demonstrate how activists conceptualizations of modernity reflect Western academic discourses of modernity Rather it is her intent to unfold and illustrate a vernacular Palestinian and activist discourse of modernity exploring how modernity here is literally an ideology in

the make and subject to improvisation Still these same improvisations carry social weight within the activist community as activists reflect on their roles as emergent modern leaders as well as judge others with reference to these same ideologies

Israeli-Palestinian Activism Alexander Koenler, 2015-03-28 When do words and actions empower When do they betray Based on ethnographic fieldwork this volume tracks the repercussions of advocacy activism against house demolitions in unrecognised Arab Bedouin villages in Israel's southern internal frontier It highlights the repercussions of activism for victims fund raisers and activists The ethnographic episodes show how humanitarian aid intervention and indigenous identity politics can turn into a double edged sword Ironically institutional lobbying for coexistence and its interpretative categories can sometimes perpetuate different forms of subjugation The volume also shows how beyond the institutional lobbying novel figures of activism emerge informal networks create non sectarian cross cutting countercultures and rethink human environment relationships These experimental political subjects redefine the categories of the conflict and elude the logic of zero sum games they point towards a shifting paradigm in current ethnopolitics Koenler outlines an ethnographic approach for the study of social movements that follows multiple relations around mobilisations rather than studying activism in itself This perspective thus becomes relevant for scholars and activists engaged with the Israeli Palestinian conflict and those interested in global rights discourses
