Pamphlet Architecture 32 Resilience Matt Ozga Lawn:

Pamphlet Architecture 32 James A. Craig, Matt Ozga-Lawn, 2013-07-02 The competition for Pamphlet Architecture 32 centered on the theme of resilience By addressing the capacity to cope the ability to bounce back and the mitigation and management of risk participants were asked to showcase a fresh understanding of the architectural opportunities found in resilience The winning entry successfully takes on the topic through an investigation of the ravaged city of Warsaw Poland By identifying interrogating and ultimately reinforcing both the physical and immaterial conditions of the landscape the project allows the space to become something new and yet hold on to what it is truly exhibiting resilience **PA 32: Resilience**

Expanding Fields of Architectural Discourse and Practice Matthew Butcher, Megan O'Shea, 2020-11-27 Expanding Fields of Architectural Discourse and Practice presents a selection of essays architectural experiments and works that explore the diversity within the fields of contemporary architectural practice and discourse Specific in this selection is the question of how and why architecture can and should manifest in a critical and reflective capacity as well as to examine how the discipline currently resonates with contemporary art practice It does so by reflecting on the first 10 years of the architectural journal P E A R 2009 to 2019 The volume argues that the initial aims of the journal to explore and celebrate the myriad forms through which architecture can exist are now more relevant than ever to contemporary architectural discourse and practice Included in the volume are architectural practitioners design researchers artists architectural theorists historians journalists curators and a paleobiologist all of whom contributed to the first seven issues of the journal Here they

provide a unique presentation of architectural discourse and practice that seeks to test new ground while forming distinct relationships to recent and more longstanding historical legacies Praise for Expanding Fields of Architectural Discourse and Practice The story told by the authors of this work can thus be considered as the central tool of an architectural transgression Critique d art
