Michael A. Szolowicz, 2024-09-25 Who s Gonna Water My Tomatoes School Gardens Kitchens and the Search for Educational Authenticity updates an old concept for our modern age utilizing school gardens and culinary kitchens where students grow prepare and eat their own food Over a century ago the educational philosopher John Dewey proposed reforming education around the needs of the whole child emphasizing academic learning and the child s social needs for effective participation in a democratic society In Dewey s view children would best learn by engaging in authentic experiences that would introduce complement and complete their regular classroom experiences Dewey talked about school gardens and kitchens as two specific laboratories where children could apply what they were learning in school in daily life Today the tensions between experiential learning and the more rote learning often found in regular classrooms remain Educators increasingly find themselves accountable to the narrow performance pressures imposed by standardized testing pressures that often squeeze out the joys and possibilities for more authentic and engaging learning found in real world experiences This book explores Dewey s philosophy with particular attention given to experiential learning s relationship to gardens and kitchens The school garden and kitchen movement itself has ebbed and flowed over the last hundred years in response to changing societal and educational pressures This history leads to the present day where the edible schoolyard movement is experiencing a new spring as educators parents and school communities find value in edible schoolyard s possibilities for providing more wholistic education that better meets the academic social and emotional needs of students The book focuses on a network of edible schoolyards by introducing educators teachers principals and staff who are making edible schoolyards happen today Their vision and motivations form in

their favorite lessons and in the connections between garden and kitchen experiences to the more traditional subject matter favored on state tests Suggestions and resources for starting new edible schoolyards including suggested recipes are provided for those who want to get growing with their own edible schoolyards Perfect for courses such as Educational Reform Educational History Educational Philosophy Educational Leadership Curriculum Development and Transformation Experiential Learning Project Based Learning and Educational Policy Environments Aunt Ruby's Green Tomato Bill Landis, 2023-09-07 A professor of nutrition leaves his office and heads into the fields of a local farm to dig deeper into the reality of his food With the help of several of his students he films his experience chronicling the life of a tomato plant from seed to harvest on a small family farm He is introduced to farm life at quirky Eco Farm by Big John the rock star farmer Over the course of one summer he is schooled on the ways of organic agriculture the sex life of the tomato is introduced to the enigmatic world of heirloom tomatoes and ponders the spiritual life of plants and the miracle of a seed Told with humor and personal anecdotes from his food upbringing in New Jersey in the 1960s he takes a fresh look at the changes in the American dietary landscape over the last half century and attempts to salvage a connection to his food Upon visiting a tomato seed company in western North Carolina he learns of a unique heirloom tomato Aunt Ruby's German Green a rare green when ripe variety He decides to track down the story behind Aunt Ruby and her backyard tomato treasure hidden from the world for most of her life What starts out as a straightforward plan to learn more about where his food comes from takes him on a journey of self discovery that leaves him questioning his core assumptions about nutrition and the very essence of food finally finding clarity by way of an elderly woman from a little town in Tennessee and her unusual tomato The JFK Assassination Dissected Cyril H. Wecht, M.D., J.D., Dawna Kaufmann, 2021-11-08 Since President John F Kennedy's 1963 murder in Dallas medical examiner and lawyer Dr Cyril Wecht was initially inclined to accept the official theory that one person alone was responsible for the crime But as Wecht delved into the evidence with boundless curiosity and unprecedented access he came to understand that America had instead suffered a coup d'etat at the hands of rogue elements within our own government Nobody else has Wecht's up close and personal experience in uncovering the facts behind this assassination and now he is sharing it with the world Co authored by investigative journalist Dawna Kaufmann this comprehensive book reveals Wecht's analyses of the case's forensic and medical evidence With his keen eye and sharp tongue Wecht wields his scalpel on JFK's dubious autopsy report the inept Warren Commission Report the mishandling of crucial materials all of the key players and the media malpractice that has allowed the truth to remain hidden for nearly six decades **Dissecting Stephen King** Heidi Strengell, 2005 In a thoughtful well informed study exploring fiction from throughout Stephen King's immense oeuvre Heidi Strengell shows how this popular writer enriches his unique brand of horror by building on the traditions of his literary heritage Tapping into the wellsprings of the gothic to reveal contemporary phobias King invokes the abnormal and repressed sexuality of the vampire the hubris of Frankenstein the split identity of the werewolf the domestic melodrama of the ghost

tale Drawing on myths and fairy tales he creates characters who like the heroic Roland the Gunslinger and the villainous Randall Flagg may either reinforce or subvert the reader's childlike faith in society And in the manner of the naturalist tradition he reinforces a tension between the free will of the individual and the daunting hand of fate Ultimately Strengell shows how King shatters our illusions of safety and control King places his decent and basically good characters at the mercy of indifferent forces survival depending on their moral strength and the responsibility they may take for their fellow men

The Thumpin' Naftali Bendavid,2008-12-10 In the 2006 midterm elections the Democratic party ended twelve years of electoral humiliation by seizing back Congress and putting an end to Republican rule The Thumpin is the story of that historic victory and the man at the center on whom Democratic hopes hinged Congressman Rahm Emanuel head of the Democratic Congressional Campaign Committee DCCC Chicago Tribune reporter Naftali Bendavid had exclusive access to Emanuel and the DCCC in the year and a half leading up to the elections and ended up with the story of a lifetime the thrilling blow by blow account of how Emanuel remade the campaign in his own ferocious image Responsible for everything from handpicking Congressional candidates to raising money for attack ads Emanuel a talented ballet dancer better known in Washington for his extraordinary intensity and his inexhaustible torrents of profanity threw out the playbook on the way Democrats run elections Instead of rallying the base Rahm sought moderate to conservative candidates who could attract more traditional voters Instead of getting caught in the Democrats endless arguments about their positions he went on the attack personally vilifying Republicans from Tom DeLay to Christopher Shays And instead of abiding by the gentlemen s agreements of good old boy Washington he broke them attacking his counterpart in the Republican party and challenging Howard Dean the chairman of his own party In 2005 no one believed victory was within the Democrats grasp But as the months passed Republicans were caught in wave after wave of scandal support for the war in Iraq steadily declined and the president s poll numbers plummeted And in Emanuel the Democrats finally had a killer a ruthless closer like Karl Rove or Lee Atwater poised to seize the advantage and deliver what President Bush would call a thumpin Taking its cues from classic political page turners like Showdown at Gucci Gulch and documentaries like The War Room The Thumpin takes us inside the key races and the national strategy making that moved the Democrats from forecasted gains of three seats in 2005 to a sweeping gain of thirty seats when the votes were finally counted Through this masterful account of Rahm s rout Bendavid shows how the lessons the Democrats learned in 2006 to fight for every vote to abandon litmus tests and to take no prisoners will be crucial to the party s future electoral success and shape the political course the nation will take in the twenty first century
