More than three million high school students take five million Advanced Placement exams each May yet remarkably little is known about how this sixty year old privately run program has become one of U.S. education's greatest successes From its mid century origin as a tiny option for privileged kids from posh schools AP has also emerged as a booster rocket into college for hundreds of thousands of disadvantaged youngsters It challenges smart kids affects school ratings affords rewarding classroom challenges to great teachers tunes up entire schools and draws vast support from philanthropists education reformers and policymakers AP stands as America's foremost source of college level academics for high school pupils Praised for its rigor and integrity more than 22 000 schools now offer some or many of its thirty eight subjects from Latin to calculus art to computer science But challenges abound today as AP faces stiffening competition especially dual credit curriculum wars charges of elitism misgivings by elite schools and universities and the arduous work of infusing rigor into schools that lack it and academic success into young people unaccustomed to it In today's polarized climate can Advanced Placement maintain its lofty standards and overcome the hostility politics and despair that have sunk so many other bold education ventures Advanced Placement The Unsung Success Story of American Education is a unique account richly documented and thoroughly readable of the AP program in all its strengths and travails written by two of America's most respected education analysts

*Crossing the Chasms of Life* Audrey Gittens-Gilkes, 2017-02-07 Dr Audrey Gittens is a Caribbean woman with a global perspective on life Her experience in health care and involvement in socio economic and political spheres have given her wisdom beyond her years Despite her achievements she considers being a mother and grandmother her most significant accomplishments This book is based on her life's trajectory the hills and troughs she has climbed and the passion she has for any undertaking The

author's strongest characteristic is the ability to overcome challenges. She knows what it is like to be tossed in the wind to be battered and bruised yet she survives any storm. She rose to the highest rank of the nursing profession earning her BScN MSc and doctoral degrees in nursing. Her education, training, and experience have propelled her to other career fields including housing, public service, information, and labor. She has been chairman of the board of several organizations and sat in advisory capacities on others. Her most notable trait is that she is a humanitarian always defending the vulnerable and marginalized. Apart from her mother, the women who inspired her and whose legacy she emulates include the head of the International Monetary Fund Christine Lagarde, Margaret Thatcher, former British Prime Minister, Mary Eugenia Charles, former Prime Minister of the Caribbean Island of Dominica, Elnora Warner, nurse leader and educator of Antigua and Barbuda, Dr. Marjorie Parks of Belize, nurse leader and educator, and Aberdeen Brown of St. Vincent and the Grenadines, a former nurse leader and educator. Dr. Gittens' motto is "The sky is never the limit, look beyond."

**Nomad** Ayaan Hirsi Ali, 2010. This woman is a major hero of our time. Richard Dawkins. Ayaan Hirsi Ali captured the world's attention with *Infidel*, her compelling coming-of-age memoir which spent thirty-one weeks on the New York Times bestseller list. Now in *Nomad*, Hirsi Ali tells of coming to America to build a new life, an ocean away from the death threats made to her by European Islamists, the strife she witnessed, and the inner conflict she suffered. It is the story of her physical journey to freedom and more crucially her emotional journey to freedom, her transition from a tribal mind set that restricts women's every thought and action to a life as a free and equal citizen in an open society. Through stories of the challenges she has faced, she shows the difficulty of reconciling the contradictions of Islam with Western values. In these pages, Hirsi Ali recounts the many turns her life took after she broke with her family and how she struggled to throw off restrictive superstitions and misconceptions that initially hobbled her ability to assimilate into Western society. She writes movingly of her reconciliation on his deathbed with her devout father who had disowned her when she renounced Islam after 9/11, as well as with her mother and cousins in Somalia and in Europe. *Nomad* is a portrait of a family torn apart by the clash of civilizations. But it is also a touching, uplifting, and often funny account of one woman's discovery of today's America. While Hirsi Ali loves much of what she encounters, she fears we are repeating the European mistake of underestimating radical Islam. She calls on key institutions of the West, including universities, the feminist movement, and the Christian churches, to enact specific innovative remedies that would help other Muslim immigrants to overcome the challenges she has experienced and to resist the fatal allure of fundamentalism and terrorism. This is Hirsi Ali's intellectual coming-of-age, a memoir that conveys her philosophy as well as her experiences and that also conveys an urgent message and mission to inform the West of the extent of the threat from Islam, both from outside and from within our open societies. A celebration of free speech and democracy, *Nomad* is an important contribution to the history of ideas but above all a rousing call to action.
