An Ecclesiology for the Twenty-First Century Cheryl M. Peterson, 2013-05-01 Many congregations today are beset by fears whether over loss of members and money or of irrelevancy

in an increasingly pluralistic society To counter this many congregations focus on strategy and purpose what churches do but Cheryl Peterson submits that mainline churches need to focus instead on what or who they are to reclaim a theological rather than sociological understanding of themselves To do this she places the questions of the church's identity and mission into a conversation with the primary ecclesiological paradigms of the past century the neo Reformation concept of the church as a word event and the ecumenical paradigms of the church as communion She argues that these two paradigms assume a context of cultural Christendom that no longer exists focused on the church that is gathered rather than the missional church Modern Moral Problems William B. Smith, 2012-01-01 Modern Moral Problems addresses moral that is sent out quandaries that can beguile and confuse faithful Catholics Written in a question and answer format the book covers questions regarding sexuality medical ethics business practices civic responsibilities and the sacramental life of the Church The extraordinary assortment of issuesforming a single organized collection is a valuable reference for anyone seeking clear and concise answers to tough moral questions Written in a conversational tone often spliced with humor this work by a highly respected moral theologian will be read with fascination for its clarity of argument and fundamental good sense Originally published as a monthly question and answer column in a magazine for priests these selections by Msgr William B Smith retain a striking current topicality Msgr Smith often tackled matters of controversy in the Catholic Church ones which continue to draw conflicting opinions Interesting informative and eminently practical this book conveys an overall impression that sound thinking about morality is rooted in a tradition within the Catholic Church even when the answers to particular moral questions cannot be found in catechisms or Vatican documents Msgr Smith offers a clear headed approach to the quandaries of our time precisely because of his training in traditional moral principles and his fidelity to the Catholic magisterium This book should be in the possession of all seminarians and priests who are bound to confront moral matters that are not so easily decided at first glance But lay people too will find here rich responses to the challenging and sometimes unresolved moral questions they encounter in their own lives
